

Obstetric Anaesthesia Annual Scientific Meeting 2022

Thursday 5 - Friday 6 May 2022, ICC Wales, Newport

ICC
WALES

ePoster presentations (2nd Session)

Friday 6 May – 08:30-19:30

Board no. 1

Poster no.	Board no.	Slot no.	Poster title	Presenter
P102	1: CS Technique	1	Ouch! A guide to managing intra-operative pain during caesarean section	Kimberley Hoyland
P103	1: CS Technique	2	Intrathecal dexamethasone for arterial hypotension management during spinal anaesthesia for elective caesarean section	Nataliya Pyasetska
P104	1: CS Technique	3	Perioperative management of glycemic control: still room for improvement	Luke Yarlett
P105	1: CS Technique	4	General anaesthesia for elective caesarean section in a tertiary centre: a two-year survey	Nisha Saini
P106	1: CS Technique	5	Epidural top-ups for surgical anaesthesia: a survey to investigate variation in practice between consultants and trainees in a tertiary maternity unit	Alice Chubb
P107	1: CS Technique	6	Survey on practice of epidural top-up for caesarean section among anaesthesiologists	Pawan Nanjangud
P108	1: CS Technique	7	A survey of healthcare professionals' understanding of the obstetric failed intubation guidelines	David Jones
P109	1: CS Technique	8	Separating elective and emergency streams - the benefit of centralisation of our maternity services at Aneurin Bevan University Health Board (ABUHB)	Daniel Helme
P110	1: CS Technique	9	Evaluation of patient satisfaction from telephonic consultations for anaesthetic preassessment in the high-risk obstetric patient population	Abhiram Sahathevan

Obstetric Anaesthesia Annual Scientific Meeting 2022

Thursday 5 - Friday 6 May 2022, ICC Wales, Newport

ICC
WALES

ePoster presentations (2nd Session)

Friday 6 May – 08:30-19:30

Board no. 2

Poster no.	Board no.	Slot no.	Poster title	Presenter
P111	2: CS Complications	1	Postoperative nausea and vomiting in obstetrics: an ongoing challenge	Sophie Foreman
p112	2: CS Complications	2	Changing communication culture at the time of emergency caesarean section by introduction of a 'safety pause' in delivery suite ward rounds	Yasaman Besharatian
P113	2: CS Complications	3	Reasons for delay in decision to delivery in category 1 caesarean section: a retrospective audit	Kelly Sugden
P114	2: CS Complications	4	Major obstetric haemorrhage - how did we get away with not transfusing blood products?	Sorana White
P115	2: CS Complications	5	Optimising obstetric care in high BMI patients - should we offer elective caesarean sections based on BMI?	Sarah John
P116	2: CS Complications	6	A quality improvement project to improve trainee confidence in managing fetal head impaction at caesarean section	Sophie Ragbourne
P117	2: CS Complications	7	Improving communication during major obstetric haemorrhage	Eleanor Humphry
P118	2: CS Complications	8	Survey evaluation of major obstetric haemorrhage protocols across the UK.	Seema Quasim
P119	2: CS Complications	9	Bloody essential - reviving cell salvage	Ciara Crail
P120	2: CS Complications	10	Ergonomics in the interventional radiology operating theatre for placenta accreta management	Kimberley Hoyland

Obstetric Anaesthesia Annual Scientific Meeting 2022

Thursday 5 - Friday 6 May 2022, ICC Wales, Newport

ICC
WALES

ePoster presentations (2nd Session)

Friday 6 May – 08:30-19:30

Board no. 3

Poster no.	Board no.	Slot no.	Poster title	Presenter
P121	3: CS Postnatal Issues	1	National survey on postnatal analgesia prescribing and use of self-administration regimens	Eleanor Tanqueray
P122	3: CS Postnatal Issues	2	Improving follow up after obstetric anaesthetic intervention	Matt Bigwood
P123	3: CS Postnatal Issues	3	Patient follow-up after obstetric anaesthetic intervention during the COVID-19 pandemic lockdowns	Sunil Shah
P124	3: CS Postnatal Issues	4	Analgesia post caesarean section: a fifth local re-audit of obstetric anaesthetic service and implementation of PROSPECT guidelines	Naomi Gostelow
P125	3: CS Postnatal Issues	5	Analgesia post caesarean section: a local service evaluation comparing intrathecal and epidural diamorphine and fentanyl	Naomi Gostelow
P126	3: CS Postnatal Issues	6	The effect of intrathecal diamorphine compared to intrathecal fentanyl on postoperative analgesia for elective caesarean section	Georgia Halladay
P127	3: CS Postnatal Issues	7	New caesarean section analgesia guide: repeat post implementation maternal survey	King Hay Cheong
P128	3: CS Postnatal Issues	8	Local differences in anaesthetic practice for perineal trauma repair and manual removal of placenta	Michael Bentley
P129	3: CS Postnatal Issues	9	An analysis of peri-operative pain management in women undergoing caesarean section	Stephanie Harris
P130	3: CS Postnatal Issues	10	Morphine PCA use after CS under general anaesthetic: a review of practice	Alexandra Matheson

Obstetric Anaesthesia Annual Scientific Meeting 2022

Thursday 5 - Friday 6 May 2022, ICC Wales, Newport

ICC
WALES

ePoster presentations (2nd Session)

Friday 6 May – 08:30-19:30

Board no. 4

Poster no.	Board no.	Slot no.	Poster title	Presenter
P131	4: Labour Analgesia 2	1	Analgesia for labour in the Republic of Ireland - changes in practice over a decade; 2011-2021	Alison Fahey
P132	4: Labour Analgesia 2	2	Improving safety in management of labour analgesia with intrathecal catheter after accidental dural puncture	Mary Molloy
P133	4: Labour Analgesia 2	3	Accidental dural puncture during epidural blood patch: what happens next? A national survey	Rachael Boyle
P134	4: Labour Analgesia 2	4	Scan here! Improving delivery of labour analgesia information through QR codes	Charlotte Brathwaite-Shirley
P135	4: Labour Analgesia 2	5	A place for everything and everything in its place: improving re-stocking of the epidural trolley	Charlotte Brathwaite-Shirley
P136	4: Labour Analgesia 2	6	Remifentanil patient-controlled analgesia (PCA): a service evaluation in a tertiary hospital	Tracey Christmas
P137	4: Labour Analgesia 2	7	Management of re-sited epidural catheters following recognised accidental dural puncture	Khalid Boussouara
P138	4: Labour Analgesia 2	8	Monitoring of neurological blockade after epidural insertion on delivery suite	Chris Whitfield
P139	4: Labour Analgesia 2	9	Epidural analgesia in Scotland - a survey of current practice	Lucy Halliday
P140	4: Labour Analgesia 2	10	Survey of anaesthetist's confidence with remifentanil patient-controlled analgesia, and challenges to its use	N Squires

Obstetric Anaesthesia Annual Scientific Meeting 2022

Thursday 5 - Friday 6 May 2022, ICC Wales, Newport

ICC
WALES

ePoster presentations (2nd Session)

Friday 6 May – 08:30-19:30

Board no. 5

Poster no.	Board no.	Slot no.	Poster title	Presenter
P141	5: High Risk Patients	1	Obesity in pregnancy: audit into anaesthetic service provision	William Turner
P142	5: High Risk Patients	2	Impact of body mass index on obstetric and anaesthetic outcomes: a three-month observational audit	Xenia David
P143	5: High Risk Patients	3	Changes to body mass index and its recording following COVID-19 lockdown cessation in Wales on delivery suite	Kate Harding
P144	5: High Risk Patients	4	Peripartum and delivery outcomes for parturients with class III obesity in a tertiary obstetric unit	Holly Moxon
P145	5: High Risk Patients	5	Obstetric analgesia and anaesthesia after spinal surgery: inserting the needle in a minefield	Olivia Babaua
P146	5: High Risk Patients	6	Understanding of maternal sepsis	Stefan Henrik Axel Andersson
P147	5: High Risk Patients	7	Maternal, anaesthetic and neonatal outcomes for parturients with ischaemic heart disease.	James Fletcher
P148	5: High Risk Patients	8	Pregnancy and COVID 19: a case series at Royal Derby Hospital	Muhammed Elkhyat
P149	5: High Risk Patients	9	Impact of Covid-19 on maternity and anaesthetic services: a one-year survey	Payal Kajekar
P150	5: High Risk Patients	10	Anaesthetic care of women with obesity in pregnancy	Eve Foley

Obstetric Anaesthesia Annual Scientific Meeting 2022

Thursday 5 - Friday 6 May 2022, ICC Wales, Newport

ICC
WALES

ePoster presentations (2nd Session)

Friday 6 May – 08:30-19:30

Board no. 6

Poster no.	Board no.	Slot no.	Poster title	Presenter
P151	6: Teaching & Training	1	How low (and far) would you go?: The speed and accuracy of identifying intervertebral level and depth to epidural space in novices, using ultrasound	Kimberley Hoyland
P152	6: Teaching & Training	2	Learning through challenges: a near peer teaching approach for UK anaesthetic trainees	Matthew Devlin
P153	6: Teaching & Training	3	Can ultrasound lumbar spine be taught in an hour? A quality improvement project to teach ultrasound for neuraxial anaesthesia	Shalini Sundaram
P154	6: Teaching & Training	4	Can't sleep, won't sleep? A qualitative interview study of anaesthetic trainees' attitudes to fatigue and rest on the delivery suite	Thomas Wootten
P155	6: Teaching & Training	5	Does regular simulation reduce the incidence of complications for home-birthing parturients: a pilot study	Harriet Daykin
P156	6: Teaching & Training	6	The role of a logbook in demonstrating competence in pre-procedural ultrasound for central neuraxial block	Kimberley Hoyland
P157	6: Teaching & Training	7	The experience of multidisciplinary in-situ simulation training in Coombe Women and Infants University Hospital	Yasi Besharatian
P158	6: Teaching & Training	8	Utilisation of pre-procedural spinal ultrasonography on labour ward	Kay Anne Mak
P159	6: Teaching & Training	9	A quality improvement project looking at the use of tea trolley teaching on a busy labour ward	Shaan Hyder
P160	6: Teaching & Training	10	A multi-disciplinary e-learning starter course - would you like some salt with that?	Sebastian Tanner

Obstetric Anaesthesia Annual Scientific Meeting 2022

Thursday 5 - Friday 6 May 2022, ICC Wales, Newport

ICC
WALES

ePoster presentations (2nd Session)

Friday 6 May – 08:30-19:30

Board no. 7

Poster no.	Board no.	Slot no.	Poster title	Presenter
P162	7: Clinical Governance	1	A review of high dependency unit admissions in a busy maternity hospital	Sally Ann Sheehy
P163	7: Clinical Governance	2	A survey of time discrepancies in clocks and medical devices in the Rosie Hospital Delivery Unit at Cambridge University Hospitals	Chamika Abayasinghe
P164	7: Clinical Governance	3	Audit of anaesthetic chart documentation in obstetrics	Malcolm Broom
P165	7: Clinical Governance	4	Pain relief during labour: a quality improvement project to enhance informed consent	Frances Ng
P166	7: Clinical Governance	5	Consent in obstetric anaesthesia	Joanna Lau
P167	7: Clinical Governance	6	Digitalising patient information in obstetric anaesthesia during the COVID-19 pandemic	Eve Foley
P168	7: Clinical Governance	7	ExACT Obs - Exeter Anaesthetic Critical incident Training in Obstetrics	Suzanne Grenfell
P170	7: Clinical Governance	8	Does current anaesthetic documentation in our maternity High Dependency Unit (HDU) sufficiently reflect the level of clinical service?	Kathryn Harper

Obstetric Anaesthesia Annual Scientific Meeting 2022

Thursday 5 - Friday 6 May 2022, ICC Wales, Newport

ICC
WALES

ePoster presentations (2nd Session)

Friday 6 May – 08:30-19:30

Board no. 8

Poster no.	Board no.	Slot no.	Poster title	Presenter
P171	8: Cases 4	1	Anaesthesia for the obstetric patient with Ehlers Danlos Syndrome.	Michael Johnston
P172	8: Cases 4	2	A case of disseminated intravascular coagulation as an atypical presentation of amniotic fluid embolism	Linda Chan
P173	8: Cases 4	3	Maternal cardiac arrest during emergency caesarean section: a likely case of amniotic fluid embolism	Jordan Alfonso
P174	8: Cases 4	4	"Genetic double jeopardy" - a patient with Stickler syndrome and haemophilia B carrier	Kimberley Hoyland
P175	8: Cases 4	5	Anaesthesia for caesarean section in a parturient with systemic mastocytosis	Nikhil Abraham
P176	8: Cases 4	6	Spinal anaesthesia for EXIT procedure	Richard Robley
P177	8: Cases 4	7	Anaesthetic management of a parturient with Fowlers syndrome.	Shashidhar Dabbehatta
P178	8: Cases 4	8	A broken heart? Unexplained cardiac ischaemia after intrauterine fetal death.	Karim Taleb
P179	8: Cases 4	9	Anaesthetic considerations of obstetric patient with Stickler Syndrome: a case report	Gillian de Loughry
P180	8: Cases 4	10	Epidural abscess following epidural insertion for labour analgesia	Katherine Whitehouse

Obstetric Anaesthesia Annual Scientific Meeting 2022

Thursday 5 - Friday 6 May 2022, ICC Wales, Newport

ICC
WALES

ePoster presentations (2nd Session)

Friday 6 May – 08:30-19:30

Board no. 9

Poster no.	Board no.	Slot no.	Poster title	Presenter
P181	9: Cases 5	1	Emergency caesarean section under subarachnoid block in a severely underweight parturient	Sunil Shah
P182	9: Cases 5	2	Sole epidural anaesthesia for cesarean delivery of a parturient with severe mitral stenosis with embolic stroke with hemiparesis.	Bashu Dev Parajuli
P183	9: Cases 5	3	Parafalcine subdural haemorrhage after accidental dural puncture; a reminder to consider alternative differentials for post dural puncture headaches	Arabella Chapman
P184	9: Cases 5	4	Anaesthetic management of COVID-19 and malignant hyperthermia for emergency caesarean section	Nikole Runciman
P185	9: Cases 5	5	Safe management of a patient with COVID-19-induced thrombocytopenia for an elective caesarean section	Ahmed Abdelhafiz
P187	9: Cases 5	6	Total intravenous anaesthesia for caesarean delivery in women with coagulopathy	Rachel Scale
P188	9: Cases 5	7	Anaesthetic management of a parturient with DAO enzyme deficiency, postural orthostatic tachycardia syndrome and joint hypermobility.	Lauren Borg Xuereb
P189	9: Cases 5	8	Anaesthetic management of a parturient with an uncorrected chiari malformation	Unnati Bhatia
P190	9: Cases 5	9	The anaesthetic management of a parturient with vascular ehlers danlos syndrome	Samantha Jayaweera

Obstetric Anaesthesia Annual Scientific Meeting 2022

Thursday 5 - Friday 6 May 2022, ICC Wales, Newport

ICC
WALES

ePoster presentations (2nd Session)

Friday 6 May – 08:30-19:30

Board no. 10

Poster no.	Board no.	Slot no.	Poster title	Presenter
P191	10: Cases 6	1	Cerebral venous thrombosis in pregnancy after spinal and epidural blood patch dural puncture	Deborah Moore
P192	10: Cases 6	2	Elective caesarean section in a patient with mast cell activation syndrome.	Gilly De Loughrey
P193	10: Cases 6	3	Post-partum aortic dissection in a patient with previously undiagnosed Marfan syndrome.	Stephen Berry
P194	10: Cases 6	4	Lightning strikes thrice	Claire McCaul
P195	10: Cases 6	5	Management of spontaneous intracranial hypotension in pregnancy: a case series	Asantha Jayaweera
P196	10: Cases 6	6	A cerebral confusion; spontaneous subarachnoid haemorrhage in labour	Katrina Henderson
P197	10: Cases 6	7	Management of an obstetric patient with paroxysmal tachyarrhythmia	Anjalee De Silva
P198	10: Cases 6	8	Laparotomy for ruptured appendicitis in the third trimester of pregnancy.	Jennifer Westwood
P199	10: Cases 6	9	Anaesthetic management for elective caesarean section in a pregnant woman with Pycnodysostosis	Abhiram Sahathevan
P200	10: Cases 6	10	Anaesthetic management of a parturient with Klippel-Trenaunay Syndrome	Deepshikha Palit
