POSTER PRESENTATIONS

(The presenter is underlined)  (T) indicates a Trainee poster

Posters P1 – P100 are published in the IJOA meeting Supplement

P.1 Transthoracic echocardiography in patients with preeclampsia and pulmonary oedema
AT Dennis, RA Dyer, M Gibbs, L Nel, JM Castro, JL Swanevelder

P.2 (T) Point-of-view HD Video Assessment: Video Direct Observed Procedural Skills (VDOPS)
D Leslie, M Oliver, MR Stacey

P.3 An analysis of the workflow impact of changing scheduled elective cesarean deliveries from 37 to 39 weeks
B Carvalho, Y Cho, A Butwick, Y Blumenfeld, E Riley

P.4 Chronic pain after caesarean section
CE Warnaby, NJ Beale, R Russell, O Kciuk, L Buck, A Koelewyn, J Quinlan

P.5 (T) Hypnotic agents for induction of general anaesthesia in caesarean section patients: systemic review and meta-analysis of randomized trials
K Houthoff Khemlani, J Jokinen, P Kranke, J U Schreiber

P.6 (T) Too fast? Ketonuria as a marker of prolonged fasting in elective caesarean section
A Clark, R Agaram

P.7 (T) Evaluation of FIBTEM A5 guided fibrinogen concentrate administration in massive obstetric haemorrhage
I D Harrod, A Bhalla, C Chevannes, P Barclay, S Mallaiah

P.8 (T) Recovering post-operative obstetric patients: Are we meeting standards?
RA Asghar, A Quinn

P.9 Maternal satisfaction with analgesia following hospital discharge after caesarean section: a Trust approved telephone survey
T Christmas, K Ooi, J Bamber, C Patient

P.10 (T) The availability and use of ultrasound in obstetric anaesthesia in the UK
I Clegg, K Bhatia, P Kochhar, S Maguire

P.11 (T) A comparison of the ease of performing spinal anaesthesia with ultrasound guidance versus landmark palpation in women with poor quality back surface landmarks undergoing elective caesarean section
D Mullane, M Creaney, C Casby, T Tan

P.12 (T) Designing a care pathway to improve decision to delivery interval in category 1 caesarean section
M Brittain, G Campbell, S Kimber-Craig

P.13 (T) Trainee choice of induction agent for rapid sequence induction in obstetric general anaesthesia
RM Montgomery, H King, D Thorp-Jones

P.14 Management of failed intubation and difficult airways in UK Obstetric Units: an OAA survey
H Swales, M Mushambi, A Winton, K Ramaswamy, A Quinn, M Popat, M Kinsella

P.15 (T) The introduction of an emergency bleep system for category 1 caesarean section is associated with improved umbilical cord gases
YM Liu, WY Mon, A Stewart, R Fernando, M Columb

P.16 (T) Assessing spinal block for caesarean section: a review of the literature
JJ Hoyle, SM Yentis

P.17 (T) The effect of the Oxford Head Elevating Laryngoscopy Pillow (O/HELP) on subarachnoid local anaesthetic spread in elective caesarean section: a randomized controlled trial
H Efil, A Spring, L Crowley

P.18 (T) Obstetric failed intubation case series: avoiding the chaos of an emergency caesarean section under general anaesthesia: are you "H.A.P.P.E"?
A Thomas, KA Parsons, C Meer, M Woolnough, F Roberts
P.19 (T) A completed audit loop after a change in practice: preoperative fasting times for elective caesarean section
V Nalawade, RCC Thompson

P.20 (T) Clinical impact of loss of preservative-free bicarbonate when extending epidural blockade for caesarean section
HI Wordsworth, S Shah, R Parbhoo, J Allam

P.21 (T) Epidural blood patch and new onset lower back pain
R Sandu, S Bricker

P.22 (T) Enhanced recovery in elective caesarean section: experience suggests reduced length of stay
N Aldamluji, K MacLennan, C Tower

P.23 (T) One night only - is enhanced recovery in obstetric surgery working for our patients?
KJ Blichtman, J Modha, Z Khan-Orakzai, N Patel

P.24 (T) Changes in analgesia requirements after withholding codeine from breastfeeding mothers following caesarean section
N M Courtenay-Evans, R G W Stacey

P.25 (T) Cost reduction and increased patient satisfaction with enhanced recovery for elective caesarean section
S Halder, C Onwere, N Singh, M Cox, SM Yentis

P.26 (T) Enhanced recovery for elective caesarean section: neonatal issues an important cause of delayed discharge
R Pothireddy, V Karthikeyan, S Aluri, D Gopinath, I Wrench

P.27 (T) Transversus abdominis plane (TAP) block for analgesia following caesarean section: a survey of practice in the West of Scotland
S Halliday, EML Beattie, K Lake, HM du Plessis

P.28 (T) Introduction of enhanced recovery after obstetric surgery: a tertiary centre experience
S Aluri, I Wrench

P.29 (T) Poor correlation between visual analogue score, subjective pain relief and patient satisfaction after caesarean section yet still achieving new audit standard
M Pachucki, P Ricci, S Grier, L Herbert, T Knight, S Moxham, N Wharton

P.30 (T) Enhanced recovery for obstetric surgery: a UK-wide survey of practice
S Aluri, I Wrench

P.31 (T) Remifentanil PCA: improving maternal safety
H Gillespie, H Murray, P Hodgkinson, D Hughes

P.32 (T) Anaesthesia for postpartum perineal repair: an observational study
SW Coleman, D Hallsworth, R Russell

P.33 The influence of antenatal class attendance on epidural uptake during labour
J Dolan, S Young, J Kinsella

P.34 An intermittent pneumatic compression system in lower extremities reduces vasoconstrictor requirements during elective caesarean section under spinal anesthesia: preliminary study
I Gonzalez, A Marti, E Moret, S Manrique, M Suescun, L Trillo

P.35 (T) Intravenous fluids in labour: an improvement in practice
R Barr, C Curry, G Fitzpatrick, M Molloy

P.36 (T) Separation or support prior to caesarean section
FMM Bryden, Z Al-Moasseb

P.37 (T) Research funding in obstetric anaesthesia: US vs. UK
El Robson, MJ Malik, SM Yentis

P.38 (T) Implementing a maternal specific sepsis bundle
P Hamer, N Tailor, RE Collis
P.59 (T) How X-ray aware are we? Doctors knowledge of radiation exposure in pregnancy
K Webster, K Maclennan
P.60 (T) Anaesthetists' knowledge of emergency equipment location in two hospitals
AL Richardson, B Dwyer, DN Lucas
P.61 (T) Survival outcomes in the maternal critically ill requiring renal replacement therapy: an
analysis of the national Scottish Intensive Care Society database
J Erskine, E Beattie, S Young, A Khan
P.62 (T) Survival outcomes in the maternal critically ill requiring ventilation: an analysis of the
national Scottish Intensive Care database
E Beattie, J Erskine, S Young
P.63 Pharmacological treatment of eclampsia – 5 year review of cases at the Royal Women’s
Hospital, Melbourne, Australia
AT Dennis, K Sarang, E Chambers
P.64 (T) Maternal critical care: the midwife's perspective
D Rangarajan, S Matthews, H Bojahr, S Wijayatilake, V Patil
P.65 (T) A 5-year review of maternal obesity and induction of labour on mode of delivery and
risk of labour, anaesthetic and neonatal complications
C Joannides, P McGlone, M Hon, S Al-Rawi
P.66 Antenatal class attendance by obese primiparous parturients undergoing induction of
labour
J Dolan, S Young, J Kinsella
P.67 (T) Obese parturients' outcomes and the impact of new referral pathways to the antenatal
anaesthetic clinic
J Goodman, AW Pool, S Bapat, C Nicholson, S Sharafudeen, D Abell
P.68 (T) Anaesthetic input and labour outcomes in morbidly obese parturients
AE Dodd, G Peters
P.69 (T) Anaesthetic management of univentricular hearts for caesarean delivery: a case series
L Borovickova, G Valchev, P Thornton
P.70 Audit of parturients with a BMI ≥40 kg/m2: a bridge too far!
K Suri Mohanram, U Misra
P.71 (T) Is it time to stop thinking laterally? Influence of body position on the identification of
Tuffier's line: an ultrasound pilot study
N Nguyen-La, H Chamarette, F Plaat
P.72 (T) Preservative-free sodium bicarbonate: what options are available?
AW Rivers, S Halder, R Agarwala, SM Yentis
P.73 (T) Programmed intermittent epidural bolus vs midwife top-up labour analgesia: the effect
on midwife workload
ECB Harty, C Papageorgiou
P.74 Clinical evaluation of non-Luer lock spinal needles
KV Bosworth, P Prasad
P.75 (T) Catheter differences in non-Luer epidural kits
R Vedantham, A Ling, P Sharpe
P.76 (T) Ultrasound for spinal anaesthesia for elective caesarean section
H Breach, N Muchatuta
P.77 (T) Mobility with programmed intermittent epidural bolus labour analgesia
JTE Cremin, CH Papageorgiou
P.78 (T) A service evaluation to assess epidural bolus requirements
HK Wrigley, P Yoxall
P.79 (T) Active warming in obstetric theatres: three completed service reviews
ME Walters, MJ Woolnough, S Aluri, F Roberts, M Berwertz, N Ahmad
P.80 (T) Timing of epidural analgesia delivery on a busy obstetric unit: a quality improvement project
H Gooneratne, C Moss, M Doraiswami
P.81 (T) Anaesthetic management of sickle cell disease in pregnancy: an audit of practice in a tertiary referral centre
E Oteri, V Sodhi
P.82 Ethnicity and risk of postpartum hemorrhage
J Banovska, P Goffard, P Barlow, P Kapessidou
P.83 (T) An evaluation of intraoperative cell salvage in obstetrics
D Leslie, S Morris, G Lilley
P.84 Reducing red cell transfusion in maternity
K Connelly, T Hawkins, J Ablett, GNB Jackson
P.85 (T) Elective caesarean section and preoperative group and save: should we follow NICE guidance?
S N Phillips, M Cole, A Bonell, N Taylor
P.86 (T) Service evaluation of intraoperative cell salvage as routine for all caesarean sections in a tertiary hospital
S Bellam, PJ Rose, M Porter
P.87 (T) An audit of anticoagulation following regional anaesthesia for caesarean section
A Odubiyi, CM Mitchell, W Wight
P.88 (T) Does reinfusion of blood salvaged at emergency caesarean section increase the risk of infection?
D Baker, KM Teare, CJ Ralph
P.89 (T) Anaesthetists vs. obstetricians: a survey of uterotonic use at caesarean section
N Trask, Q Lo, M Naik, S Wray
P.90 (T) Audit of compliance with British Committee for Standards in Haematology (BCSH) 2012 guidelines for blood grouping before blood transfusion
K Caulfield, N Hayes, D Murphy, S Ryan Enright, F Ni Aine
P.91 (T) Myocardial infarction following subcutaneous terbutaline for external cephalic version
S Bellam, RJ Elton, L Lacey, DL Adamson
P.92 Intra-operative anaphylactic reaction to oxytocin followed by postpartum haemorrhage
S Askourom, O Hickey
P.93 Unusual cause of T wave inversion in a pregnant women identified in operating theatre
VK Melachuri
P.94 (T) Peripartum care of two women with Noonan Syndrome
N Tailor, NS Jenkins, RE Collis, A Theron
P.95 (T) Management of pregnancy in a patient with Bombay phenotype blood
AL Richardson, R Patel, J Stanger, DN Lucas
P.96 (T) The wolf in sheep’s clothing: an unusual case of complete heart block
C Skerritt, J Shannon
P.97 (T) Venticuloperitoneal shunt malfunction secondary to the gravid uterus: a case of a parturient with neurofibromatosis presenting with hydrocephalus
S Wijesuriya, C Talati, D Bhagawati, M Doraiswami
P.98 (T) Anaesthetic implications of anti-N-methyl-D-aspartate receptor encephalitis in a parturient
P Dewan, M Jones
P.99 (T) Peripartum cardiomyopathy presenting as left bundle branch block and preeclampsia
MS Ramly, O Hickey

P.100 (T) Oocyte donation and caesarean delivery in a woman with Turner syndrome:
anesthetic implications
MJ Ross, A Wise, ES Cooper, R Burns

P.101 A modified WHO surgical safety checklist for category 1 caesarean sections
A Lahkar, A Cooney, G Massolini

P.102 (T) A parturient with phocomelia and severe needle phobia: the challenges faced
R Sinha, K Howard, N Bhandal

P.103 A questionnaire to evaluate and aid future development of the AAGBI's SAFE obstetric
anaesthesia course in Liberia
JCO Fox, CE Richards, T Sheraton, A Sonah

P.104 A retrospective descriptive analysis of anaesthesia for successful cervical cerclage in
pregnancy
J Modha, G Burul, F Forya, CP James, AL David, JDick, L Wee

P.105 A retrospective descriptive analysis of dose of intrathecal anaesthesia and adjuncts for
successful cervical cerclage in pregnancy
J Modha, G Burul, F Forya, CP James, AL David, JDick, L Wee

P.106 (T) A step towards improving theatre productivity for elective caesarean sections
S Kale, C Farrow, N Owen, K Miltsios

P.107 (T) A year in the "maternity" life of an increasingly busy new build district general
teaching hospital - coping with training and service provision - 2013
H Wrigley, PF Yoxall, Janet Slee

P.108 (T) Abstracts on the antenatal anaesthetic clinic presented to the Obstetric Anaesthetists’
Association, 1991-2013
AJ Wickham, SM Yentis

P.109 Accuracy of a new electronic obstetric anaesthetic database
Rohit Rohit, R Abraham, GNB Jackson

P.110 (T) Accuracy of landmark approach to central neuraxial blocks in obstetric patients
J Lie, K Bhatia, A Venkataraju, P Kochhar

P.111 (T) Adherence to antenatal anaesthetic advice in labouring morbidly obese parturients.
S Halliday, LC Robertson, HM du Plessis

P.112 (T) An evaluation of anaesthetic antenatal clinics in the obese obstetric population
PR El-Dalil, DS Cochran, R Ganapathy

P.113 (T) An evaluation of fasting times for elective caesarean section surgery
J Ghoshdastidar, KM Sherratt, M Seneviratne, A McGlennan

P.114 (T) An evaluation of intrathecal diamorphine versus fentanyl for lower segment Caesarean
section in a medium-sized district general hospital
K Ramm, LT Fenton-May, S Naresh

P.115 (T) An evaluation of obstetric critical care admissions in a district general hospital
VL Williams, M Greene, D Saul

P.116 (T) An evaluation of standards of informed consent and documentation for labour epidural
analgesia
S Chaudhari, N Smith, P Prasad

P.117 (T) An unusual cause of post-partum sepsis
FA Corcoran, C Brennan, A J Downs

P.118 (T) Anaesthetic management of a parturient with severe systemic scleroderma
P Thomas, A Varvinskiy, M Human
P.119  (T) Anaesthetic management of arrhythmogenic right ventricular cardiomyopathy during labour and caesarean section: a case series
J Eccles, A Jain, K Bhatia

P.120  (T) Anaesthetic management of obese parturients at a tertiary centre - meeting the standard?
L Kelliher, J Teare, E Evans

P.121  (T) Anaesthetic management of the labouring patient with multiple sclerosis
J Li Wan Po, K Macleod

P.122  Anesthetic implications of heart disease in pregnancy
S Francés, S Manrique, M Goya, M García, R Perera, N Montferrer

P.123  (T) Angle of tilt achieved with automated operating table in elective caesarean sections: a comparison with tilt achieved with an inflatable balloon wedge
PN Nair, L Dyal, B Grewal, I Suri

P.124  (T) Antenatal anaesthetic information given to women with obesity
C R Thomas, C Busby

P.125  (T) Antenatal management of morbidly obese parturients: A multicentre evaluation.
H Aladin, A Khandhia, K Pottinger

P.126  (T) Audit of temperature for patients undergoing elective caesarean section
N J Truman, I Clegg, K Macleod

P.127  (T) Availability of chlorhexidine handwash for regional analgesia on the labour ward
K Chima, T Strickland, F Plaat

P.128  Caesarean section in a rhesus null parturient with a uterine fibroid
P J Stewart, R Laird, J Cartmill

P.129  (T) Category one caesarean sections in a district general hospital: Improving the decision to delivery time
VK Wroce, AM Troy

P.130  (T) Comparison of two non-invasive cardiac output monitoring devices in a parturient with complex cardiac disease.
PJ Rose, V Misra, S Quansah

P.131  Comparison of slow and rapid bolus of ephedrine in patients undergoing planned caesarean section under spinal anaesthesia WITHDRAWN FROM PRESENTATION
PG Sekar, LB Ellakumaran, H Balachander, MVS Satyaprakash

P.132  (T) Continuous spinal anaesthesia for a primigravida with severe tricuspid regurgitation, Harrington rods and thrombocytopenia.
AM Walton, I Mettam

P.133  Does pre-operative anxiety predict post-operative pain scores in parturients undergoing caesarean section?
BM Daly, N Weidenhammer, R Junkin, L Riddell, J Dolan, J Kinsella, R Marla, S Young

P.134  (T) Early epidural analgesia may increase caesarean section rate in spontaneously labouring nulliparous women: a retrospective study
R Anil Kumar, Roger Mc Morrow

P.135  (T) Efficacy of midwife led epidural top ups in labour–Are programmable pumps really the way forward?
E Traer, G Waters, GNB Jackson

P.136  (T) Emergency obstetric and neonatal care in Kenya: Addressing millennium development goals
D B Pachter, C A Ameh

P.137  (T) Enhanced recovery after elective caesarean section: Service evaluation and quality improvement
GJ Lilley, M Adamson, A Miskin, M Turner

P.138  (T) Epidural analgesia in obese parturients: can kneeling be the answer to our prayers.
S De Silva, L Kelliher, R Mottaleb, E Combeer
P.159  (T) Lymphangioleiomyomatosis and Pregnancy: A Case Report
  M Cole, S Petkov, J Pickett

P.160  (T) Major obstetric bleeds-are we doing the right thing?-A multi-centre study in west
        midlands
  A R Sajayan, M McLoughlin, S Dinesh, A Walunj, J Karattuparambil, M Ravindran

P.161  (T) Management of labour and delivery using minimally invasive FlotracTM system in a
        parturient with congenitally corrected transposition, dextrocardia and systemic
        ventricular dysfunction
  R Vedagiri Sai, S Dhir, J Racine

P.162  (T) Management of manual removal of placenta and third and fourth degree tear repair:
        pathway analysis
  P Jegendirabose, J Subramanya, S Watkinson, J Short

P.163  (T) Multidisciplinary involvement of the high risk parturient
  S De Silva, P Gregory, E Combeer

P.164  (T) National Obstetric Anaesthetic Database: a useful tool to benchmark maternity units in
        the UK
  G Kightley, N Tailor, R Baraz, L De Lloyd

P.165  (T) Obstetric admissions to the Intensive Care Unit: a 6 year review at a UK tertiary
        maternity centre
  R Labib, K Cullis

P.166  (T) Obstetric outcomes with programmed intermittent epidural bolus labour analgesia
        JTE Cremin, CH Papageorgiou

P.167  (T) Osteogenesis imperfecta: a complex anaesthetic case
  VG Hamlyn, M Stacey, S Morris

P.168  (T) Our experience at UHCW: Post-dural puncture headache (PDPH) in a large tertiary
        teaching hospital.
  A Okunuga, S Chaudhari, S Bellam

P.169  (T) Pain relief after Caesarean section: an evaluation of analgesia, prescription and
        administration.
  C C Hullur, A Stronach

P.170  (T) Pain relief during labour- information and consent
  S Handa, J Andrews, D Bogod

P.171  (T) Patient experience following introduction of early discharge for elective caesarean
        section (CS) in a tertiary centre - a telephone survey.
  S Aluri, S Sukumaran, I Wrench

P.172  Perception of labour analgesia amongst third world female scientists
  II Akhideno

P.173  (T) Post dural puncture headache - the implications of early discharge policies
  S K Timalapur, S Young, A Kilpatrick

P.174  (T) Post operative nausea and vomiting after caesarean section
  K Draper, G Lilley, A Roberts, M Turner

P.175  (T) Postpartum headache: diversity of management options
  N Aldamluji, R Morse

P.176  Rash decisions
  L N Hughes, L De Lloyd, Y Robson

P.177  (T) Re-audit of epidural request response times in a tertiary obstetric unit
  MF Yeoh, K Rosedale, M Scrutton

P.178  Recall of information for labour epidural and caesarean section: a questionnnaire study
  KO Enohumah, M Mrileh
P.179 (T) Reducing preoperative fasting prior to elective caesarean section as part of an enhanced recovery programme
GJ Lilley, M Adamson, M Turner

P.180 (T) Response times for provision of labour epidural analgesia
KE Neill, J Saule, D Bogod

P.181 (T) Schaltenbrand syndrome: a headache for the obstetric anaesthetist.
Caroline Moss, H Gooneratne, M Doraiswami

P.182 (T) Seizure during epidural blood patch
K McDonnell, P Ramasamy, C Elton

P.183 (T) Service evaluation for enhanced recovery at the Royal London Hospital
CV Taylor, E Ferreira, S Wray

P.184 (T) Service evaluation regarding the Fluido® rapid infuser and problems encountered with its use.
A Colhoun, I Wrench

P.185 (T) Spinal after epidural for emergency caesarean section: an audit of rate of conversion from epidural anaesthesia to spinal anaesthesia
K Lake, J Reid, F Henderson

P.186 (T) Spinal growth impairment following childhood radiotherapy causing a shallow epidural space - a case report
AJ Heck, LA Howie, P Kochhar, K O’Brien, B Brennan

P.187 (T) Take a deep breath... and breathe: Cricothyroidotomy for airway emergency in obstetric theatre
G McClune, C White

P.188 (T) Team preparation and anaesthesia for EXIT procedure
R Vedantham, V Girotra, S Francis, M Mushambi

P.189 The comparison of the coagulation state of parturients after vaginal delivery and after Caesarean section by thromboelastogram (TEG).
E Kukuev, A Zverev, A Braester, S Ivry, J Borenshtein

P.190 The influence of analgesic use during pregnancy on post-caesarean section pain scores
BM Daly, R Junkin, N Weidenhammer, L Riddell, J Dolan, J Kinsella, R Marla, S Young

P.191 The intra-abdominal pressure and the frequency of obstetric and perinatal complications in parturients with obesity - WITHDRAWN FROM PRESENTATION
Dmitri V Marshalov, Ivan A Salov, Efim M Shifman, AV Grishina, Aleksei Petrenko, NV Shindyapina

P.192 (T) The use of remifentanil PCA for labour analgesia
S Maclean, R Fulton, D Shah, G Mathew

P.193 (T) Trainees experiences of using TAP blocks on labour ward.
S Bell, S Setty

P.194 (T) Training opportunities for Caesarean Section (CS) under general anaesthesia (GA).
Veena Daga, Mary Mushambi
