POSTER PRESENTATIONS

(The presenter is underlined)  (T) indicates a Trainee poster

Posters P1 – P80 are published in the IJOA meeting Supplement

P.1  (T) A cost assessment of cell salvage in obstetrics
    S Waldron, S Chadwick, A Parkes, P Kirk

P.2  (T) Does the use of cell salvage in Rhesus D antigen negative women cause alloimmunisation?
    A Sange, V Skelton

P.3  Comparison of closed-loop feedback computer-controlled and manual-controlled phenylephrine infusions during spinal anaesthesia for caesarean section
    WD Ngean Kee, KS Khaw, YH Tam, FF Ng

P.4  (T) A follow up audit after a change in practice: parturients’ desire for information about rare complications of regional anaesthesia
    JE Angrave, KE Cullis, PAS Moore

P.5  (T) Epidural and intrathecal opioid administration - An OAA approved survey of current practice
    A J Brewer, R Leighton

P.6  How good are we at placing epidurals? Initial results from the Cusum project
    N L Scott, E J Lewis, H Murgatroyd, M Purva

P.7  (T) Loss of resistance technique for obstetric epidurals: is it related to the incidence of accidental dural puncture?
    C Todd, N Hollister, S Ball, D Thorp-Jones, J Coghill

P.8  (T) National survey on epidural needle size used in obstetric practice
    P Gauthama, M Mushambi, S Francis

P.9  (T) Whose depth is it anyway? A study to examine accuracy of epidural depth assessment
    K Kondov, FE Webster, P Sharpe, R Leighton

P.10 (T) A national survey of the presence and utilization of thromboelastography and thromboelastometry across UK obstetric units
    AV Pillai, W Scott

P.11 (T) Reference ranges for thromboelastography and traditional coagulation tests in term parturients
    B Macafee, K Ashpole, M Cox, F Matthey, L Acton, SM Yentis

P.12 (T) Descriptive study to determine rotational thromboelastometry (ROTEM©) values during labour and to assess the relationship between FIBTEM and Clauss fibrinogen
    K S King, S Setty, K Thompson, A P McGlennon

P.13 (T) Point of care thromboelastography during massive obstetric haemorrhage in a maternity hospital
    CM Nix, R Bhinder, T Tan, MF Carey

P.14 ROTEM© thromboelastometry identifies blood product requirements during major obstetric haemorrhage
    S Bolton, M Harkness, S Thompson

P.15 Hyperfibrinolysis not observed in obstetric haemorrhage when evaluated with thromboelastography
    CP Brearton, P Barclay, S Malliah

P.16 The use of thromboelastography (TEG) to determine the effect of obesity and pregnancy on coagulability. A prospective observational study
    S Sharma, H Boyce, J Ng, S Ijioma, A Moretti, G Stocks

P.17 (T) Invasive arterial blood pressure (IABP) monitoring in patients with severe pre-eclampsia undergoing caesarean section - a national survey
    RA Stoeter, CMA Booth, H Buckley, S Maguire, S Wheatly

P.18 Hemodynamic parameters in preeclampsia measured by transthoracic impendancemetric cardiology in the third trimester of pregnancy: an observational pilot study.
    S Leroy, A Addes, N Didi, B Lacroix, B Dureuil
P.19 (T) Peripartum cardiomyopathy in a preeclamptic patient: a diagnostic conundrum. P Rudra, S Sagadai

P.20 (T) Loes Dietz Syndrome: general vs regional anaesthesia for caesarean delivery N Hooker, R Bell

P.21 (T) Management of phaeochromocytoma in pregnancy: a case series A Sabharwal, C Williamon, V Sodhi

P.22 (T) Aortic dissection in pregnancy and managing cardiopulmonary bypass after caesarean section CL Johnston, F Schroeder, R Wendler

P.23 (T) The provision of high dependency care within delivery suite SC Waldran, A Waite, A Bewlay

P.24 (T) Introduction of a standardised admission and discharge proforma in an obstetric high dependency unit K O'Connor, R Kearns, K Litchfield

P.25 (T) Obstetric intensive care admissions: a 12 year review in a tertiary intensive care centre C Turkington, B Mullan, M Molloy

P.26 (T) Review of admissions of obstetric patients to intensive care over a three year period P Gauthama, D Ncomanzi, R Leighton

P.27 (T) Maternal admissions to critical care - a 10 year review FL Anderson, JA Joss

P.28 (T) Massive haemorrhage in placenta praevia during caesarean section is not related to the grade of placenta SD Singaravelu, S Mallaiah, P Barclay

P.29 (T) Accidental dural puncture - 12 months in a large obstetric unit SP Cope, Y Wagner

P.30 (T) Can't a consultant do my epidural? Is the grade of anaesthetist related to the incidence of accidental dural puncture? C Todd, N Hollister, S Ball, D Thorp-Jones, J Coghill

P.31 (T) Simulation training in obstetric anaesthesia - a national survey of its availability and usefulness J Paul, A Amarasekara, B Kurian, S Dinesh, Y Chikermane

P.32 (T) Anaesthesia for morbidly obese parturients: How big a problem is it? M Shanmugam, R Natesan, P Kochhar

P.33 (T) Audit of maternal body mass index during pregnancy AO Packham, A Darbar, E Hart

P.34 (T) High body mass index and outcomes in the parturient S Eason, U Misra

P.35 (T) Obesity in pregnancy: anaesthetic interventions and delivery outcomes CL Baxendale, EJ Walker

P.36 (T) Introduction of a midwife led anaesthetic obesity clinic A Theron, S Harries, R Collis

P.37 Knowledge of the potential obstetric and anaesthetic risks in pregnancy due to raised body mass index MEK Pearce, HV Hopwood

P.38 (T) The ease of performing spinal anaesthesia with ultrasound guidance in obese women with poor quality back surface landmarks undergoing elective caesarean delivery S Mac Colgáin, F Memon, T Tan
P.39 (T) Remifentanil PCA for labour analgesia: friend or foe
J C Bonner, W McClymont

P.40 The launch of remifentanil-PCA in labour in Switzerland combined with webbased continuous quality control
A A Melber, D Reinhardt, AS Bansi

P.41 (T) Usage of remifentanil patient controlled analgesia in labour in the UK.
KM Howie, S Millar

P.42 (T) Use of remifentanil for labour analgesia. A three-year audit of practice
KO Enohumah, V Zutshi, C McCaul, J Loughrey

P.43 (T) Effect of reducing fasting times for fluids before elective caesarean section
TA Tanqueray, M Mackenzie, SM Yentis

P.44 (T) How ‘natural’ are your caesarean sections? – A national survey.
JC Walker, H Swares, P Mackie

P.45 (T) Anaesthetic times for caesarean section: an observational study of spinal anaesthesia
B Macafee, P Reide, B Norman, SM Yentis

P.46 (T) Audit of technique of anaesthesia for caesarean section: 7 years of audit experience in a teaching institution
MD Hulgur, A Surah, M Purva

P.47 (T) How obstetric anaesthetists test the quality of regional anaesthetic block before caesarean section: a national survey
YM Liu, V Nagaratnam, M Sodhi, P Tamilselvan, S Venkatesh, A England, R Fernando

P.48 (T) Category I caesarean sections: an audit of decision to delivery interval and fetal outcome
N Patel, S Wray

P.49 (T) Decision to delivery interval in emergency caesarean section: a prospective observational study
C Harte, C McCaul, N Hayes

P.50 (T) Anaesthetic times for grade-1 caesarean section – a simulation study
B Macafee, T Tanqueray, P Reide, B Norman, SM Yentis

P.51 (T) Analgesia and thromboprophylaxis post caesarean section: completing the audit cycle following introduction of a patient information card
LE Christie, KJ Gray, M Kynoch, M Cox

P.52 (T) Assessing venous thromboembolism risk - compliance with CEMACH recommendations and CQUIN target
D Soltanifar, L Wee

P.53 (T) Pulmonary embolism: reducing the risk with inferior vena caval filters
J A Khan, M Molloy

P.54 (T) Audit of inadvertent perioperative hypothermia in the obstetric theatre
MC Dale, M Crawford, PO Johnston

P.55 (T) NICE and warn: completing the audit cycle
G Keightley, R Isaacs, D Leslie, MW Turner

P.56 (T) Temperature measurement at the forehead as acceptable alternative to tympanic measurement in obstetric patients
A Sange, J Chieza, S Sharafuddin, C Junghans, V Skelton

P.57 (T) Obstetric “wake up and proceed” survey
D Hurford, C Laxton

P.58 (T) Obstetric airway management - a national survey of equipment and training
JMD Noblet, GB Iyer, DN Lucas, PN Robinson, DJA Vaughan
P.59  (T) Assessment of application of cricoid pressure in an obstetric unit using a modified 50-ml syringe.
M Bhardwaj, K Williams, K Ramaswamy, M Popat

P.60  (T) Incidence of postoperative morbidity following general anaesthesia for caesarean section
S Soltanifar, S Tunstill, M Bhardwaj, R Russell

P.61  Postoperative analgesia after caesarean section: comparison of patient controlled analgesia with continuous infusion of pethidine
S Ismail, G Afshan, A Monem, A Ahmed

P.62  (T) Chronic pain following caesarean section and vaginal delivery: a retrospective survey of 200 patients
K Jarvi, J Bowditch, N Hasan, S Balasubramanian

P.63  (T) Pain on day 2 after elective caesarean section - is it really a problem? Postoperative analgesic requirements after spinal anaesthesia with intrathecal opioid
L K Kessack, L D Gray, D M Levy

P.64  (T) Persistant pain after caesarean section: a survey of incidence and adequate management
R Gupta, A McGlennan

P.65  Changes in placental and fetal organ perfusion during chronic maternal hypoxia in mice: assessment by BOLD MRI during brief hypercapnic and hyperoxic challenge.
Y Ginosar, N Corchia, U Elchalal, R Abramovich

P.66  (T) Spontaneous low pressure headache - a normal MRI scan does not exclude the diagnosis.
R Goval, IJ Wrench

P.67  (T) CEMACH two years on
SL Williams, S Catling

P.68  (T) Audit of fetal intrauterine resuscitation prior to caesarean section for fetal distress
NJ Boniface, S Wallace, WB Maxwell

P.69  (T) Awareness of anaesthetic procedures within the obstetric team
R Campbell, V Salota, H Sauer

P.70  (T) Are boys more trouble than girls? An investigation into the significance of fetal gender on caesarean section category and epidural requests in labour.
JC Barker, J Coghill

P.71  (T) Demographic and obstetric outcomes of elderly parturients at a London teaching hospital: 20 years of data
L Peltola, J Mayer, J Cook, R Bedson, L Arrandale

P.72  (T) Does IVF pregnancy affect the load of work of anaesthetist in labour ward?
H Kaskos, L Peltola, F Plaat

P.73  (T) Drug-using parturients in a tertiary referral centre
JL Robertson, EM McGrady, S Young

P.74  (T) Pregnancy outcome in sickle cell disease patients: a London hospital case series
S Sharafudeen, N Parry, V A Skelton

P.75  (T) Regression modeling of fetal hydrogen ion concentration at elective caesarean section
P K B C Raju, M Fernandes, J Bonner, W McClymont, S Munishankarappa, J Nanson, N Purdie, G A Mcleod

P.76  (T) Very late booking parturients: characteristics, outcomes and anaesthetic involvement
A Dharmadasa, DN Lucas, S Hiles, D Vaughan, PN Robinson

P.77  (T) What time is it in maternity? - completing the audit cycle
AJ Hool, R Stoeter, H Eason, S Reddy

P.78  (T) Nausea and vomiting after intrathecal diamorphine: closing the audit loop
SJ Hill, GR Lyons, R Wilson, H Mclure, E McDonnell
P.79 (T) A prospective survey of anaesthetic practice for laser ablation in twin-twin transfusion syndrome
TM Day-Thompson, E McDonald, Y Poonawala

P.80 A survey of obstetric anaesthesia and analgesia in the Czech Republic in 2009
A Parizek, J Blaha, P Noskova

P.81 Changing to prophylactic phenylephrine for elective caesarean section: one institution's experience
NA Muchatuta, T Bowles, CA Lobo

P.82 (T) Survey of midwives' knowledge of local anaesthetics and epidural analgesia in southeast England
P Krishnan, J Maclean, G O'Sullivan

P.83 (T) Improving epidural safety: a closed-loop audit of equipment provision in the labour ward
A Jeffrey, M Wilkes

P.84 (T) Case series of hyperkalaemia in two pre-eclamptic primigravid females with liver haematoma and rupture
NA Logan, W Edwards, MJ Brett, S Millar

P.85 (T) An Interesting Case of Dyslipidemia for Caesarean section
P Kumar, M Doraiswami

P.86 (T) Case report: Benign intracranial hypertension as a cause of post epidural headache
C Joannides, A J Brewer, C Elton

P.87 (T) Emergency caesarean section in an anticogulated patient with fontan circulation and bleeding placenta praevia.
T Bhari, T Day-Thompson, K Hasan

P.88 (T) Patent foramen ovale (PFO) as a mechanism of paradoxical embolism and stroke during pregnancy: a case report
NC Doody, G Peters, T Dunn

P.89 (T) Postpartum coronary artery compression secondary to a rib exostosis caused by hereditary multiple exostoses
IR Mohamed Iqbal, N Wharton

P.90 (T) Undiagnosed phaeochromocytoma causing haemodynamic instability during elective caesarean section
CN Makura, E Walker

P.91 (T) Impact of a daily safety checklist in an obstetric high dependency unit
K O’Connor, R Kearns, K Litchfield

P.92 (T) Audit of referrals to a high risk obstetric anaesthesia clinic
P Gregory, E Combeer

P.93 (T) Outcomes of high-risk obstetric patients referred to the anaesthetic clinic.
K Slade, SJ Young, KN Litchfield

P.94 (T) Audit of blood transfusion in the obstetric population
AO Packham, R Ayyash, E Hart

P.95 (T) Blood product use during major obstetric haemorrhage
SJ Cross, J Cheung, SA Thompson

P.96 (T) Blood transfusion in obstetrics - are we giving too much?
K Kotur, J Dawson, S Avery, Z Eke

P.97 Blood transfusions in the obstetric population. Are we giving too many?
T Starkie, L Drake, D Thorp-Jones

P.98 (T) Gabapentin in the treatment of post dural puncture headache
SP Cope, F Storr, Y Wagner
P.99  (T) Maternal position during obstetric epidural insertion: is it related to the incidence of accidental dural puncture?
     C Todd, N Hollister, S Ball, D Thorp-Jones, J Coghill

P.100  (T) Evaluation of lumbar puncture simulator Mk2 for teaching epidural placement to new obstetric anaesthetic trainees
     MA Broom, V Uppal, R Kearns, E McGrady

P.101  (T) Improvement in confidence ratings after one-day high fidelity simulation for novices in obstetric anaesthesia
     Esther Flavell, Siobhan King, Rachael Craven

P.102  (T) Audit on compliance with antenatal anaesthetic advice and anaesthetic management in morbidly obese patients
     AP Singh, H Brooks

P.103  (T) Failure rate of neuraxial anaesthesia in morbidly obese parturient
     V Poupinel, D Provost, V Compère, S Leroy, M Rieu, R Gillet, B Rachet, L Marpeau, B Dureuil

P.104  (T) How big is the problem? How CMACE are we?
     RC Treadgold, L Kirkham, A Revill, J Thurlow

P.105  (T) Morbid Obesity in Parturient, Are we doing enough?
     D Joseph, S Sivasubramaniam

P.106  (T) Obstetric outcomes of morbidly obese women at a London teaching hospital
     J Mayer, B Graham, V Sodhi

P.107  (T) A new technique for labour analgesia- our experience of remifentanil patient controlled analgesia
     A Sinclair, J L Robertson, C Johnstone

P.108  (T) How to proceed following failed neuraxial anaesthesia for caesarean section? A survey of consultant obstetric anaesthetists
     MA Broom, S Young

P.109  (T) Light touch - How do you do it? An observational study of practice
     AJ Brewer, R Leighton

P.110  (T) Management of emergency and elective caesarean sections at a district general hospital. Reducing morbidity according to NICE guidelines
     YM Liu, N Dobby, E Fajemirokun

P.111  (T) Implementation of the WHO obstetric checklist-modified with five key/star points: a completed audit cycle
     NA Joshi, L Jordan

P.112  (T) World Health Organisation surgical safety checklist - variation in completion with clinical urgency and time of day
     D Soltanifar, L Wee

P.113  (T) Caesarean section prescription of antibiotic and thromboprophylaxis-completing the audit cycle.
     P Morris, J Smith, J Halshaw

P.114  (T) Hypothermia and elective caesarean section - service evaluation and survey of practice in East Anglia
     S Advyanthaya, R Dumpala, A Banerjee, SD Petkov, JA Pickett

P.115  (T) A prospective audit of airway and intubation problems during general anaesthesia for caesarean section
     G Timms, V Bythell

P.116  (T) Audit of general anaesthesia for caesarean section: documentation of failed regional anaesthesia
     C Sandberg, N Berry, J Corfe

P.117  (T) Sodium citrate use in GA caesarean section: obstacles and solutions
     MN Ravindran, E Evans

P.118  (T) Assessment of training and use of a modified obstetric early warning score (MEOWS) chart prior to implementation
     N Patel, L Menadue, H Mulchandani, E Hill, R Khan, C Sadler
(T) Improving compliance with recording of maternity vital signs and early warning scores
J Nariani, A Bewlay, A Waite

A survey of chronic pain service provision for post partum women in maternity units of Scotland.
R Marla, J M Dolan, S Young

Analgesic requirements in post partum women at the time of discharge
R Marla, J M Dolan, S Young

(T) Audit of compliance with post-operative analgesic prescriptions after caesarean sections
NM Canchi, A Barry, M Ilchyszyn, G O'Sullivan

(T) Complex regional pain syndrome following protracted labour
AG Butchart, M Mathews, A Surendran

(T) Does the dose of Codeine really matter?
S Cole, R Akhtar

(T) Pain relief after caesarean section
T C Poole, A Modi, N W Penfold

(T) Benefits of delayed removal of epidural catheter after caesarean section for grade-4 placenta praevia
Ajit Bhat, Andrew Bailey

(T) Drug errors in obstetric anaesthesia: a national survey
S Eason, U Misra

(T) Getting the numbers right. An investigation of clinical coding and data capture in a large maternity hospital
N Broughton, J Bamber

(T) How has the EWTD affected caseload and training time in obstetric anaesthesia?
T Heinink, M Walters

(T) Intrapartum fetal assessment: do obstetric anaesthetists know enough?
M Salman, R Kumar, E James

(T) Intrauterine resuscitation: a survey of knowledge and audit of practice at a London teaching hospital
S J Hammond, R L Smith

(T) Just managing - delivery without regional analgesia
DS Dugdale, M Chakravarti

(T) Neuraxial anaesthesia and lumbar tattoo: incidence and current practice.
C Brearton, D Castillo, P Barclay, D Broad

(T) Obstetric follow-up: completion of audit loop
I Mavridou, M Sodhi

(T) The rapid sequence spinal - a survey of trainee practice
S Jigajinni, N Sharawi, P Sultan, S Thunga, D Radhakrishnan

(T) Timing of prophylactic antibiotic administration for caesarean delivery
PD Frank, A Bewlay
