POSTER PRESENTATIONS

(The presenter is underlined)  (T) indicates a Trainee poster

Posters P1 – P80 are published in the IJOA meeting Supplement

P.1  (T) A national survey on the management of major obstetric haemorrhage: availability of cell salvage.
    DH Evans, E Lewis

P.2  (T) Audit of obstetric intraoperative cell salvage uptake, benefits and complications: three years experience
    CL Baxendale, N Osborn

P.3  (T) Cell salvage during caesarean section reduces peri-operative allogeneic red cell transfusion in suitable patients.
    S Aluri, I J Wrench, M Wilson

P.4  (T) Do leucocyte depletion filters shed their material?
    El Robson, JP Campbell, MJ Mackenzie, S Sooranna, SM Yentis

P.5  (T) National survey of obstetric cell salvage availability
    C Harber, JS Dawson, P Wake

P.6  Continuous infusion dose of phenylephrine to prevent hypotension during regional anaesthesia for cesarean delivery
    Jungmin Lee, Eunsu Choi, Wonsik Ahn

P.7  (T) Novel method for targeting fluid and vasopressor management in caesarean section under spinal anaesthesia using continuous non-invasive monitoring
    MC Faulds, I Wrench

P.8  Prevention of oxytocin induced hypotension in caesarean delivery by co-administration of phenylephrine.
    ABM Kamrul Hasan, Anand H Kulkarni, S Durairajan, Kim H Lim, Zulaidi Latif, H L Kaul

P.9  (T) A survey of patient and partner views, on the presence of the partner in the operating theatre during caesarean section performed under regional and general anaesthesia.
    KR McIlmoyle, S Young

P.10 (T) Should women be able to choose caesarean delivery? A UK survey of obstetric anaesthetists
    N Patel, F Plaat

P.11 (T) Mobilisation after neuraxial obstetric anaesthesia
    M W Lambert, L Emanuel-Kole, A P McGlennon

P.12 (T) National survey of mobilisation guidelines after epidurals
    N Akerman, J Jones, L Walton

P.13 (T) Thromboelastography and obesity in pregnancy
    ES Morgan, E Wilson, BJ Hunt, FG Smith

P.14 (T) The impact of pre-eclampsia on the childbirth experience
    S Lau, C Carr, S Wood, A Dennis

P.15 (T) "Allergic to everything" - sulphite sensitivity
    S Davies, M O'Meara, A Banks

P.16 (T) A follow-up study of lung function trends in cystic fibrosis parturients
    J Kerr, S Quasim, E Walker

P.17 (T) Anaesthetic management of parturients with neuromuscular disorders requiring non invasive ventilation - a case series
    K Bhatia, P Kochhar, A Bentley

P.18 Anaesthesia in parturients with cardiac disease: a one-year review
    K O'Connor, P Tripathi, J Brennand, B McCreath
P.19  (T) Anaesthetic management during childbirth in women with cardiac disease - history matters.
SD Williams, R Wendler, F Schroeder

P.20  Cardiac function in women with severe pre-eclampsia
A Dennis

P.21  (T) One year review of obstetric patients with cardiac disease referred to the anaesthetic high risk clinic
K E Bramley, K Litchfield

P.22  Management of labour and birth in a woman with refractory supraventricular tachycardia
M Lee, A Dennis

P.23  (T) Amniotic fluid emboli in transit - captured on transoesophageal echocardiogram
L Lei, P Smith

P.24  Anaesthetic management and outcome of parturients with hypermobility type Ehlers-Danlos syndrome: a case series
H Kaskos, N Patel, R Bell

P.25  (T) Beware “normal” urea and creatinine on the delivery suite
RW Evans, GJ Lilley, RE Collis

P.26  (T) "The mortality of appendicitis complicating pregnancy is the mortality of delay"
AJ Downs, S Gopalakrishnan

P.27  (T) Acute disc herniation in labour requiring decompressive surgery
N Broughton, M Morosan, K Hodge, E Sherman-James, A Helmy, K Barkshire

P.28  (T) Where to start? Funding maternal critical care patients.
JC Roberts, B Lomas, D Dreniw, S Wheatly

P.29  (T) Invasive monitoring within the Maternal Critical Care Unit
B James, P Barclay

P.30  (T) Maternal critical care, a survey of knowledge of midwives and intensive care nurses.
A Sabharwal, S J Napier, C Rom, F S Plaat

P.31  (T) Obstetric critical care in south-west Uganda - an 18 month survey of maternal critical care admissions and outcomes
K Webster, H Buckley, S Ttendo

P.32  (T) Attendance at the anaesthetic BMI antenatal clinic - does it increase uptake of labour epidural?
L Savic, E Mcdonnell, G Lyons

P.33  (T) The effect of the anaesthetist’s attendance at the obstetric ward round on pre-operative assessment of non-elective caesarean section
RA Leslie, J Astin, J Tuckey, SM Kinsella

P.34  (T) A national survey of the management of major obstetric haemorrhage:availability of diagnostic and interventional radiology.
DH Evans, E Lewis

P.35  (T) A national survey on the management of major obstetric haemorrhage: drugs for uterine atony.
DH Evans, E Lewis

P.36  (T) A retrospective audit of obstetric red cell transfusions
S H El-Sheikha, R A Cross

P.37  (T) Peripartum hysterectomy - an anaesthesia perspective
MA Barry, B Byrne, RA Fanning

P.38  (T) A survey of the management of major obstetric haemorrhage in Scotland
A Jenkins, B McCreath, J Roberts, O Wu, J Moss
P.39 (T) Placenta praevia in a district general hospital: a five year retrospective audit, 2007-2011
CM Shevlin, ROK Laird

P.40 (T) Prophylactic internal iliac artery balloon catheters for caesarean section in a Jehovah's Witness with sickle cell disease and placenta praevia
PS Beavan, KG Eagland

P.41 (T) The joint obstetric and anaesthetic management of women who decline blood products - a tertiary referral centre experience
O Clancy, L Byrd, P Kochhar

P.42 (T) Trends in major obstetric haemorrhage cases in a university hospital, a decade on
J Kaur, R Pandey, K Dasgupta, A Joseph

P.43 (T) Counselling for epidural blood patches
EJ Robson, SM Yentis

P.44 (T) Dual pathology following inadvertent dural puncture
IS Banga, AJ Downs, J Rees, J Danks

P.45 (T) Do intrauterine resuscitation guidelines increase use of these techniques? A comparison of two tertiary centres
WS Burnside, PJ Morris, R Marr, T Meek

P.46 (T) Teaching anaesthetists about fetal monitoring and resuscitation
RJ Pierson, J Marriott, S Millett

P.47 (T) Obstetric anaesthesia career intentions: a trainee survey
JS Dawson, DM Levy

P.48 (T) An audit of epidurals in morbidly obese parturients
KG Srinivas, C Elton

P.49 (T) Management of parturients with obesity in UK obstetric units. OAA approved Survey.
H Alfoudri, S Catling, S Davies

P.50 (T) Does bilateral sympathetic block in labour epidural analgesia predict a successful extension to epidural anaesthesia for caesarean section?
A Kumar, J Bamber

P.51 (T) Factors affecting mobilisation after caesarean section
A Sugavanam, S Thakrar, M Cassim, S Gowrie-Mohan, K Jani

P.52 (T) Early feeding post caesarean section: Empowering patients and staff education led to the successful implementation of a new guideline
G Subash, A Philips, H Roberts, I Wrench

P.53 (T) National survey of practice in adherence to WHO safer surgery checklists on the labour ward
V Gopinathan, I Sivanandan, E McDonnell, H McLure

P.54 (T) Investigation of suspected maternal pulmonary thromboembolism
M W Lambert, A P McGlennon

P.55 (T) Ability of non-Luer spinal anaesthesia syringes to unlock the EpiFuse epidural catheter connector
JP Campbell, SM Yentis

P.56 (T) How much safer can needles be? One year audit of outcomes of caesarean sections performed with current luer connector spinal needles
R Evans, R Baraz

P.57 (T) Assessment of an urgency classification for assisted vaginal delivery
RA Leslie, J Astin, J Tuckey, SM Kinsella

P.58 (T) Sepsis in pregnancy: development and pilot of a screening tool and management guideline
RT Lewis, WD King, MA Kai, GR Craig
P.59  (T) Obstetric Sepsis: the experience of a tertiary centre  
RI Docking, GA Scott, E McGrady, J Kinsella, K Litchfield

P.60  (T) Case Report of Post-partum Group C Streptococcus Sepsis Complicated by Ovarian Vein Thrombosis  
ECB Harty, E Hartsilver, J Blackman, T Kay, M Morgan

P.61  (T) Anaesthesia for External Cephalic Version - A Survey of Lead Obstetric Anaesthetists in the UK  
NW Parry, Y Poonawala

P.62  Anaesthetic interventions in VBAC- a review over a 2 year period  
AP Singh, A Moye, M Kitching, K Gladwell

P.63  (T) Attenuation of pressor response to laryngoscopy during general anaesthesia for caesarean section in pre-eclampsia- a review of 12 years practice  
W Birts, R Savine, A Addei

P.64  (T) General anaesthesia in obstetrics: what about the trainers?  
R Bartlett, PN Robinson, MR Nel, DN Lucas

P.65  (T) Persistent pain following caesarean section; a retrospective questionnaire based survey of 150 women  
I Mihaylov, T Rajamanickam, I Suri

P.66  (T) Prevalence of chronic pain after caesarean delivery.  
S Muthukrishnan, K Soundararajan, K Litchfield

P.67  (T) What's the white stuff? Improvement in staff knowledge of local anaesthetic toxicity and its management with Intralipid® after targeted educational intervention. A completed audit loop.  
A Winton, C Laxton

P.68  (T) The Intralipid "life belt"; knowledge rescue measures to close the audit loop  
K Gough, EJ Robson, R Bedson

P.69  (T) Awareness about local anaesthetic toxicity and management: a survey of our delivery suite team  
C Janarthanan, U Misra

P.70  (T) Epidural then spinal at the same interspace: is it safe?  
A M Livingston, R M Williamson

P.71  (T) Spinal anaesthesia for emergency caesarean section in patients with labour epidural analgesia  
S Rowell, C Burnett, JA Reid, F Henderson

P.72  (T) An investigation into the effects of ergometrine on human myometrium in vitro  
RA Fanning, N Duffy, M Leonard, B Ahmed, JJ O'Connor

P.73  Leptin resistance in human pregnancy: cerebrospinal fluid concentrations of proopiomelanocortin (POMC), agouti-related protein (AGRP) and leptin  
RM Smiley, G Page-Wilson, E Reitman-Ivashkov, K Meece, A White, M Rosenbaum, SL Wardlaw

P.74  (T) Staffing on labour ward; is it at a critical level?  
K Gough, K Bexon, R Bedson

P.75  (T) A national survey of obstetric anaesthetic data collection methods in the UK (OAA survey number 110)  
NJ Campbell, P Youngs, I Anderson

P.76  (T) A simple tick box system improves documentation on the obstetric epidural anaesthesia record: a complete audit cycle  
MJ Diacon, A Panicar, JJ Wrench

P.77  (T) Oral intake in labour: a UK survey in collaboration with the Royal College of Midwives (RCM)  
SJ Jigajinni, J Munro, J Hoyle, C Falvey-Browne, C Mannakkara, D Radhakrishnan

P.78  (T) Distraction and interruption to anaesthetic practice during caesarean sections  
G Campbell, K Arfanis, AF Smith
P.79 (T) Response rates to OAA-approved surveys 1998-2010
   EJ Robson, JP Campbell, SM Yentis

P.80 (T) Outcomes of OAA approved/non-approved surveys
   JP Campbell, EJ Robson, SM Yentis

P.81 (T) Repeated hypotension associated with leucocyte depleting filter during infusion of cell
   salvaged blood
   J Kerr, N Osborn

P.82 A survey of anaesthetists' preference on the language used to explain an epidural to
   labouring women
   PM Slater

P.83 (T) Audit – Labour epidural and maternal risk recollection – are our women giving
   informed consent?
   A Senathirajah, M Khan, A Troy

P.84 (T) Documentation of risk associated with central neuraxial blockade (CNB) in labour in
   obstetric anaesthesia: an audit of maternity units in the West of Scotland
   R Jadhav, J Glen, R O'Connor

P.85 (T) Mothers' knowledge of epidural complications: can we do more?
   A V M Riccoboni, E Evans

P.86 (T) A novel epidural grading system for predicting difficult labour epidurals: A
   prospective study
   S Immanni, D Cosgrave, J Loughrey, C McCaul

P.87 (T) Audit of intrapartum bladder care in women receiving epidural analgesia
   V J Hunt, A Banks

P.88 (T) Lateral versus Sitting position for epidurals: A training issue?
   A Thangamuthu, M Purva

P.89 (T) Patient controlled epidural analgesia (PCEA): A prospective audit of mobility during
   labour
   CH Papageorgiou, N Patel

P.90 (T) Patient satisfaction, analgesic efficacy and workload on changing from continuous
   infusion to patient controlled epidural analgesia for labour
   MJP Drake, HE Jones

P.91 (T) Minimal fibrinolysis measured by ROTEM in obstetric hemorrhage
   C P Broughton, C L Chevannes, P Barclay, S Mallaiah

P.92 (T) A high pressure situation
   R Santhirapala, A Molokhia, J Arron, G Mathew

P.93 (T) Posterior reversible encephalopathy syndrome (PRES) and suspected post dural
   puncture headache: a case report
   A Kumar, JA Pickett

P.94 (T) A rare cause of postpartum headache: Glioblastoma multiforme
   S Gibb, S Thomas

P.95 (T) Achondroplasia: Anaesthetic challenges for caesarean section
   GA Scott, L Dubiel, K Litchfield, R Agaram, EM McGrady

P.96 (T) Anaesthetic management of a parturient with type III Spinal Muscular Atrophy for
   elective caesarean section
   SI Mohammed, J Möhr-Siddall, D Hughes

P.97 (T) Anaesthetic management of EXIT procedure for CHAOS syndrome
   R Khirwadkar, P Barclay, T Wauchob, L Bricker

P.98 Anaesthetic management of a parturient with Dandy Walker Syndrome for caesarean
   section (CS)
   MS Brayshaw, G Philpott
P.99  (T) Congenital absence of the inferior vena cava and the implications for the obstetric anaesthetist
GC Phillips, DA Burkett St-Laurent, V Victor

P.100 (T) Emergency caesarean section on a patient with spastic cerebral palsy
B Skalska-Lis, A Mathews

P.101 (T) Epidural dilemma: myotonic dystrophy in early pregnancy
S Sawant, S Petkov, JA Pickett

P.102 (T) Influence of maternal deprivation on management of labour and delivery in the west of Scotland
R Junkin, M Shaw

P.103 (T) Stridor in pregnancy; thyroid goitre complicated by pre-eclampsia
J Francis, F Subash, S Ridgway

P.104 (T) Developing a regional benchmarking audit to assess compliance with national recommendations for providing equity of critical and maternity care for critically ill mothers
SE Marsh, AM Quinn

P.105 (T) Development of a maternal critical care module [Midwifery Masters degree, Salford University]
JC Roberts, R Stoeter, B Lomas, R McCarthy, F Dodd

P.106 (T) Maternal critical care in a tertiary referral unit
RJ Kearns, J Wilkinson, T Quasim, K Litchfield

P.107 (T) Saving mothers' lives .......a review of obstetric intensive care admissions over 10 years
M Naik, S Wray

P.108 (T) Taking midwives for granted: A survey of critical care skills
JS Campbell, R James

P.109 (T) High-risk obstetric anaesthesia clinic attendance in a District General Hospital
NNV Tailor, PB Richardson, V Victor

P.110 (T) Analysis of major obstetric haemorrhage cases over one year period in a university hospital
J Kaur, K Dasgupta, R Pandey, A Joseph

P.111 (T) Benefits of an Anaesthetic Information Management System in Massive Obstetric Haemorrhage
D Castillo, P Barclay

P.112 (T) Blood, sweat, atony and tears........a review of major obstetric haemorrhage intensive care admissions over four years
M Naik, S Wray

P.113 Comparative assessment of invasive and noninvasive methods of detection total hemoglobin in pregnant women’s blood during abdominal delivery
AV Pyregov, SV Petrov

P.114 (T) The common "uncommon" life threatening emergency - peripartum hysterectomy
C Parcha, S Gnanasekaran, P Karkhanis, M Wyldes

P.115 (T) The use of uterotonic to reduce post partum haemorrhage after caesarean section
VM Cowie, K Cummins, E Evans

P.116 (T) Time to transfusion of blood products in major obstetric haemorrhage - striving for improvement
W N Weidenhammer, R O'Connor, E Harrison, P Stone

P.117 An audit assessing the post dural puncture headache rate in obstetric patients receiving epidural analgesia in a district general hospital.
EA Christie, P Yoxall

P.118 (T) Cerebral venous sinus thrombosis as a complication of dural puncture
AE Kavanagh, L McWhirter, R Laird
P.119 (T) Management of post dural puncture headache in a maternity unit: Retrospective review and new guideline
YM Nawaz, S Arava, S Mulvany, K O'Connor, M Rea

P.120 (T) Novel demonstration of epidural pressures during blood patch
KA Parsons, O Mateszko, IJ Wrench

P.121 (T) Postpartum review after accidental dural puncture
K O'Connor, F Bryden, K Litchfield

P.122 (T) The incidence of postdural puncture headache and neurological sequelae following neuroaxial blockade in obstetric anaesthesia: a five year study
K Bruce-Hickman, D Gordon, L Wee

P.123 (T) A telephone survey of the use of skills and drills in twenty London obstetric units... could Maternity Unit Multidisciplinary Skills (MUMS) help?
M Naik, K Bexon, G Stocks, H Bohjar, C Sadler

P.124 (T) Anaesthesia and obstetric e-debate: an interactive educational virtual cafe
J Boss, J Teare, E Evans, P Hughes

P.125 (T) Is there any effect of job rotation among trainees on the outcome of patient care? An analysis of 7 years data.
A Tufchi, G Vickers

P.126 (T) Organising a novice obstetric anaesthetist's course: conception to completion and beyond
BM Daly, EM McGrady

P.127 (T) Truly a 24 hour service - distribution of labour epidural requests over the 24 hour period and impact on response times
C E Armstrong, A J Putland

P.128 (T) A modified sitting position for regional anaesthesia in the morbidly obese parturient
D Rangarajan, TA Tanqueray, H Mulchandani

P.129 (T) Audit of the seniority of anaesthetists available during the labour and delivery of parturients with a body mass index (BMI) ≥40 in a tertiary maternity centre
CS Hawe, U Carabine

P.130 Body habitus as a predictive factor of difficult epidural block in parturients?
LM Charco, PC Cuesta, B Garcia, VE Ortiz, F Carpentero, MR Calero, U Vicente, D Martinez-Penalver

P.131 Is booking BMI an adequate risk stratification for identifying the risks associated with raised BMI in pregnancy?
E Ingram, D MacKin, V Cording, P Yoxall

P.132 (T) Relationship between patients BMI, depth to epidural space and its effect on epidural success
N Airey, E Docker

P.133 (T) Remifentanil sedation to facilitate awake fibreoptic intubation for caesarean delivery in a parturient with spinal muscular atrophy
MJP Drake, MA Minehan

P.134 (T) An audit of nausea during spinal anaesthesia for elective caesarean section.
V K Jagannathan, D Selvan, D Cooper

P.135 (T) Audit of conversion of epidural labour analgesia to anaesthesia for caesarean section
AO Packham, E Hart

P.136 (T) Checking adequacy of spinal anaesthesia for elective caesarean section with a forceps skin pinch - is this really necessary?
S Gibb, P Hersey, S Thomas

P.137 (T) Effect of speed of injection of local anaesthetic on haemodynamic parameters of women undergoing elective caesarean section
EJ Jackson, J Slee, TF Cox, A Banerjee

P.138 (T) Elective caesarean section in a patient with a spinal cord cavernoma
PJ Morris, N Redfern, S Thomas, J Nissen
P.139 Emergency category one caesarean sections - do checklists help?
  RD Miskeljin, GA Goulding
P.140 (T) The use of the Surgical Safety Checklist and thromboprophylaxis prescribing following caesarean section: completing the audit cycle
  VE Barlow, D Boregowda, K O'Brien
P.141 (T) A survey of antibiotic prophylaxis for caesarean section in South-West England
  DJ Portch, D Thorp-Jones
P.142 (T) A survey of pharmacological uterotonics use for caesarean sections at a district general hospital
  S Saha, R West, J Mukherjee
P.143 (T) Antibiotic Timing at Caesarean Section, Multidisciplinary Opinion
  KR McIlmoyle, S Young
P.144 (T) A case of post-partum meningitis following combined-spinal epidural: could the use of septic screening tool have prevented this?
  SJ Wilson, A Sabharwal, GM Stocks
P.145 (T) A survey of level of awareness of the diagnosis and treatment of maternal sepsis in a medium sized maternity unit
  T B Livingstone, A Shetye, K Srinivas
P.146 (T) Admissions to intensive care of peri-partum women: a retrospective case review with a focus on sepsis
  CG Jones, RE Collis
P.147 (T) Streptococcus endocarditis following evacuation of retained products of conception
  B Shukla, A Surendran
P.148 (T) Airway assessment on the labour ward
  N Alexander, C A Theodosiou
P.149 (T) An audit to monitor the adherence to local guidelines for aspiration prophylaxis of parturients determined to be high risk of emergency caesarean section in labour ward
  A Mehta, L Emanuel-kole, A McGlenan
P.150 (T) Iatrogenic tracheal rupture following elective caesarean section- surgical repair or conservative treatment?
  DM Dabrowska, A Alfonso, P Kukreja, K Aravinth
P.151 (T) A positive effect of the audit loop. Patient safety has increased as a result of auditing the monitoring standards against NICE guidelines for patients receiving intrathecal diamorphine for caesarian section
  P Yoxall, M C Entwistle
P.152 (T) Enhanced recovery in obstetrics
  D Mallaber, J Rajagopal, S Vause, K O'Brien, K Maclennan
P.153 (T) Hypotension following transfer to recovery post caesarian section
  JN Moore, S Kanakarajan
P.154 (T) Length of hospital stay after intrathecal diamorphine for caesarean section: an impact study.
  R K Puttaswamy, B Das, M Hodges, R Hodgson, P Moore
P.155 (T) Pain scores are higher when doing a formal evaluation than on routine follow up
  R Goyal, C Meer, IJ Wrench
P.156 (T) Post caesarean section shoulder tip pain
  R Vedantham, R Ayyash, M Mushambi
P.157 (T) Subcutaneous cannula for morphine administration after lower segment caesarean section - more trouble than it's worth
  I Kanellopoulos, R Goyal, IJ Wrench
P.158 (T) Warming for all in obstetric theatres
  DM Mallaber, J Rajagopal, K Maclennan
P.159  (T) Warming intravenous fluids decreases perioperative shivering during neuraxial
anaesthesia in parturients: an observational study
KK Kurzatkowski, DJ Jeevaratnam

P.160  (T) Why many audits fail to improve clinical practice: lessons from a post-caesarean
section analgesia re-audit
S J Ciechanowicz, J Johannesson, T Nicoli, J Rudiger

P.161  (T) Local anaesthetics for perineal suturing - a survey of midwives and obstetricians
knowledge
K Horner, R Bartlett, N El-Wahab, E Robson, N Lucas

P.162  (T) A cautionary tale: intravenous fluid management in labour.
R Barr, C Curry, M Molloy

P.163  (T) A closed loop audit of skin antiseptic for neuraxial blockade in obstetrics
A Kapoor, W Wight

P.164  (T) Sprotte Surety critical incident during an elective caesarean section
A Babic, E Morgan, M Turner

P.165  (T) Category 1 caesarean section: Failure of communication and its effect on the decision
to delivery interval.
S P B Kasa, R Goyal, A Galimberti, I Wrench

P.166  (T) Delays to the elective caesarian section list due to inadequate group and save
JF Smythe, J Maclean, L Angus, J Porter

P.167  (T) Does the anaesthetic for a category 1 caesarean section for presumed fetal distress
effect neonatal outcomes?
M Beckmann, S Calderbank

P.168  (T) Efficient running of the independent elective caesarean section list: a re-audit
AV Williams, CE Brennan

P.169  (T) Implementing an obstetric 'Perfect Operating Theatre'
C Farrell, L Parks, C McAllister

P.170  (T) Improving trends of conversion rate of anaesthesia for caesarean section: 8 years of
audit experience in a teaching institution.
O Farooq, M Purva

P.171  (T) Mobile Phone Application: Aiding quality health care to the Non/Limited English
speakers
H Aaytee, S Hussain, K Lonsdale

P.172  (T) Re-audit of epidural response times at a tertiary maternity unit following the initial
phases of local maternity service reconfiguration
VE Barlow, AM Arch, A Howells

P.173  (T) Starvation for elective LSCS: breaking the breakfast rule!!!
U M Belliappa, I Ahmed

P.174  (T) Supraventricular tachycardia during caesarean section: what is the way forward?
R Natarajan, MI Bhatti, S Dinesh, K Das (O&G)

P.175  (T) Theatre transfer times for patients undergoing emergency caetgory 1 and 2
caesarean section
C L Griffith, G Massolini, C Carvalho

P.176  (T) Use of ultrasound for obstetric regional anaesthesia
R Pandey, K Berwal, E Hart
