ORAL PRESENTATIONS
(The presenter is underlined)  (T) indicates a Trainee poster

Session 1: Thursday 24 May 2012

O.1  10:20:00  (T) Choice of anaesthetic agents for obstetric anaesthesia: are national trends changing?
     H Murdoch, C Laxton

O.2  10:27:30  (T) Comparison of ankle versus arm blood pressure measurement at elective caesarean section
     MJP Drake, JS Hill

O.3  10:35:00  (T) Distractions during critical phases of anaesthesia in the obstetric theatre
     JV Wilkinson, A Jenkins, MA Broom, MA Akeroyd, S Young

O.4  10:42:30  (T) Efficacy of leucocyte filters with unwashed blood salvaged at caesarean section
     JP Campbell, MJ Mackenzie, SM Yentis, SR Sooranna, MR Johnson

O.5  12:00:00  (T) Management of patients who decline blood transfusion - an OAA-approved national survey
     AP Jennings, C Brennan

O.6  12:07:30  (T) OAA survey of the management of intrathecal catheters
     KK Ramaswamy, M Bhardwaj, A Burumdayal, R Russell

O.7  12:15:00  (T) Observational study of haemoglobin trend during an elective caesarean section
     DJ Portch, J Barker, VR Jayaraj, P Newell, P Youngs, EJ Drake

O.8  12:22:30  (T) Predicting sepsis in labour: A validation study of SIRS criteria in a tertiary UK hospital
     PB Richardson, L Stephenson, RE Collis

O.9  12:30:00  (T) Rapid epidural top-up for emergency caesarean section: an impact on the rate of general anaesthesia
     D Soltanifar, L Wee

O.10 12:37:30  (T) Sensory thresholds and mothers' self-identification of the midline in late pregnancy
      J Ip, J Campbell, SM Yentis

O.11 12:45:00  (T) Validation of ultrasound to identify the lumbar intervertebral space in morbidly obese using MRI imaging as the gold standard- A pilot study
      KP Rao, IF Russell, M Purva

O.12 12:52:30  The effect of passive leg raising on haemodynamics in healthy term pregnant women
     S Griffiths, A Dennis

Session 2: Friday 25 May 2012

O.13 11:00:00  (T) Comparison of ultra-low and higher concentration epidural local anaesthetic solutions in labour: a meta-analysis
     P Sultan, C Murphy, S Halpern, B Carvalho

O.14 11:07:30  Left uterine displacement methods in maternal resuscitation - a national OAA approved survey of equipment and current practice
     B Macafee, D Bushby, J Ip, SM Yentis

O.15 11:15:00  Pain after caesarean section
     CE Warnaby, NJ Beale, O Kciuk, N Brooks, R Russell, J Quinlan

O.16 11:22:30  Early fibrinogen as a predictor of red cell requirements during postpartum haemorrhage
     L De Lloyd, PW Collins, A Kaye, RE Collis

O.17 11:30:00  Haemodynamics in pregnant women with morbid obesity
     S Griffiths, A Dennis

O.18 11:37:30  Impact of equipment problems on failure of spinal anaesthesia for caesarean section – baseline Luer data from the OAA NOAD/NPSA adverse outcomes monitoring
     SM Kinsella

O.19 11:45:00  The IDvIP Trial: A two-centre double-blind randomised controlled trial comparing i.m. diamorphine and i.m. pethidine for labour analgesia
     MYK Wee, JP Tuckey, P Thomas, S Burnard, D Jackson

O.20 11:52:30  The management and outcomes of placenta accreta/increta/percreta in the United Kingdom
     K Fitzpatrick, S Sellers, JJ Kurinczuk, P Spark, P Brocklehurst, M Knight
Session 2: Friday 25 May 2012

O.13 11:00:00 (T) Comparison of ultra-low and higher-concentration epidural local anaesthetic solutions in labour: a meta-analysis
P Sultan, C Murphy, S Halpern, B Carvalho

O.14 11:07:30 (T) Left uterine displacement methods in maternal resuscitation - a national OAA approved survey of equipment and current practice
B Macafee, D Bushby, J Ip, SM Yentis

O.15 11:15:00 Pain after caesarean section
CE Warnaby, NJ Beale, O Kciuk, N Brooks, R Russell, J Quinlan

O.16 11:22:30 Early fibrinogen as a predictor of red cell requirements during postpartum haemorrhage
L De Lloyd, PW Collins, A Kaye, RE Collis

O.17 11:30:00 Haemodynamics in pregnant women with morbid obesity
S Griffiths, A Dennis

O.18 11:37:30 Impact of equipment problems on failure of spinal anaesthesia for caesarean section – baseline Luer data from the OAA NOAD/NPSA adverse outcomes monitoring
SM Kinsella

O.19 11:45:00 The IDvIP Trial: A two-centre double-blind randomised controlled trial comparing i.m. diamorphine and i.m. pethidine for labour analgesia
MYK Wee, JP Tuckey, P Thomas, S Burnard, D Jackson

O.20 11:52:30 The management and outcomes of placenta accreta/increta/percreta in the United Kingdom
K Fitzpatrick, S Sellers, JJ Kurinczuk, P Spark, P Brocklehurst, M Knight
