POSTER PRESENTATIONS

(The presenter is underlined)  (T) indicates a Trainee poster

Posters P1 – P92 are published in the IJOA meeting Supplement

P.1  (T) An evaluation of a programmed intermittent epidural bolus technique for labour analgesia
I Mavridou, T Husain, R Fernando, N El-Wahab, A Stewart, J Dick, M Columb

P.2  (T) An evaluation of different ethyl chloride application methods for sensory block testing
LK Gemmell, R Taggart, I Broome

P.3  (T) Enhanced recovery in obstetrics
B Das, R Vickers, V Machineni

P.4  (T) General anaesthetic drug dosing for caesarean section in obese parturients
M Chandra, HC Reynolds, R Natesan

P.5  (T) Gravimetric measurement of blood loss during postpartum haemorrhage predicts fall in haemoglobin
DA Burckett-St.Laurent, GL Lilley, PW Collins, RE Collis

P.6  Non-luer spinal needles & syringe systems: clinical evaluation data from a large maternity hospital
I Ahmed, S S Solaidhanasekaran, M Purva, A Samaan

P.7  (T) Programmed intermittent epidural bolus analgesia for labour: a comparison of two regimens
I Mavridou, T Husain, R Fernando, N El-Wahab, A Stewart, J Dick, M Columb

P.8  The antenatal anaesthetic interview assists maternal decision making and does not increase anxiety in obese parturients
VA Eley, KJ Donovan, E Walters, R Brijball, D Eley

P.9  (T) The King's experience: satisfaction without a background infusion
C Doyle, P Groves

P.10 (T) The Surety 'Safer' spinal needle is no less safer than the Luer lock counterpart.
D Rangarajan, JMD Noblet

P.11 (T) A tertiary referral centre's experience of changing the 4g loading dose of magnesium sulphate infusion time in accordance with NICE guidance
C Meer, L Marshall, IJ Wrench

P.12 (T) Amniotic fluid embolism and use of near-patient tests of coagulation
BN Thomas, GJ Lilley, DR Phillips, LJ De Lloyd

P.13 Anaesthesiological and obstetrical implications of stridorous laryngeal pathology in twin pregnancies
GL Schwarz, F Kristensen, M Hilland, J Kessler

P.14 (T) Arterial thrombus in pregnancy post explantation of ventricular assist device
ALI Krepska, A Kumar, C Patient, M Belham, JA Pickett

P.15 (T) Seizures in pregnancy: eclampsia or something else?
A Kapoor, S Jackson

P.16 (T) Spontaneous coronary artery dissection in the peripartum period
SL Cooper, R Menon, V Hampton, AC Quinn

P.17 (T) Uterine dehiscence following B-Lynch suture
O Boyle, D Milne

P.18 An anaesthetic challenge: caesarean section for a patient with a facial arterio-venous malformation and polio
SF Bell, L De Lloyd, M Stacey, R Collis
P.19  (T) Elective caesarean section in a patient with severe congenital glaucoma
   RJ Pilling, M Doraiswami

P.20  (T) Normoglycaemic diabetic ketoacidosis in pregnancy
   S Vasdev, J Salim, T Jovaisa

P.21  (T) Peripartum care of Jehovah's witness parturients: A five year review
   YM Nawaz, S Atkinson

P.22  (T) Severe thrombocytopenia in pregnancy: preeclampsia on a background of deteriorating
   Fanconi anaemia
   N Tailor, SF Bell, RE Collis

P.23  (T) Sickle cell crisis, varicella zoster infection and preeclampsia: clinical conflict during
   emergency caesarean section
   J Ghoshdastidar, ROL Tomlin, M Doraiswami

P.24  (T) The super morbidly obese parturient: what is the way forward?
   S Moodliar, JT Chieza

P.25  (T) Use of the Air-Q Intubating Laryngeal Airway for blind tracheal intubation in a
   parturient with predicted difficult airway management
   CF Dickson, J Ogah, P Olomu, J Morch-Siddall

P.26  (T) A case of peripartum cardiomyopathy associated with severe preeclampsia
   K Sherratt, K Blightman, S Harrison

P.27  (T) Anaesthetic management in a parturient with uncorrected Tetralogy of Fallot
   JA Parker, C Grange

P.28  (T) Anaesthetic management of caesarean section in a woman with hemophagocytic
   lymphohistiocytosis
   CF Dickson, N Redfern, P Bayly

P.29  (T) Combined spinal-epidural anaesthesia for caesarean section in a patient with familial
   neurocardiogenic syncope
   AW Pool, D Abell, S Sharafudeen

P.30  (T) Combined spinal-epidural analgesia for labour in a patient with Marfan's syndrome
   and dural ectasia
   WW Teo, BSW Ng

P.31  Hereditary haemorrhagic telangiectasia complicating pregnancy
   L Carrick, E Wahdan, U Nair

P.32  (T) Intrapartum anaesthetic management of Oculodentodigital Dysplasia
   CE Watts, S Napier

P.33  (T) Ornithine transcarbamylase deficiency: the importance of multidisciplinary
   peripartum care
   R Pagedar, EKY Quak, JA Pickett

P.34  (T) A case of recurrent recurrent laryngeal nerve palsy: Ortner's syndrome in pregnancy
   S Andrews, W Birts, G Thoming

P.35  (T) Anaesthetic techniques for labour and delivery after liver transplantation: a case series
   C Doyle, E Glasgow, S Bossert, V Skelton

P.36  (T) Head and neck cancer in pregnancy
   EKY Quak, R Tandon, JA Pickett, J Bamber

P.37  Evaluation of efficacy of sequential compression device for prevention of hypotension after
   spinal anaesthesia in caesarean section
   M Kohli, S Arora

P.38  (T) Intraosseous access in the peripartum patient: is your needle long enough?
   A Mills, D Pappin, V Field, D Thorp-Jones
P.39 (T) Intraosseous vascular access in obstetric emergencies: an OAA approved national survey
   R Junkin, J Selfridge, K Litchfield

P.40 (T) Intraosseous vascular access skill acquisition in labour ward staff: results of a training programme
   R Junkin, K Litchfield

P.41 (T) Is 12 cm the magic number to shorten regional anaesthesia catheters after disconnection?
   J C Walker, K Boddu

P.42 (T) Pre-printed labels improve documentation of neuraxial anaesthesia risks for obstetric procedures in a tertiary obstetric unit: a closed audit loop.
   S Aluri, M Braganza, M Woolnough

P.43 (T) Simulated evaluation of non-Luer devices in neuraxial anaesthesia
   A K Bhalla, C Chevannes, H McNamara, T Wauchob, A Ssenoga

P.44 Transthoracic impedancemetric cardiography in the third trimester of pregnancy: indexed systemic resistances measure appears discriminant on preeclampsia early diagnosis
   S Leroy, E Tith, N Didi, A Addes, AS Songy, C Aguilella, B Dureuil

P.45 (T) Treatment of disseminated intravascular coagulopathy using near patient testing of coagulation (ROTEM) and fibrinogen concentrate
   HM McNamara, A Bhalla, C Chevannes, L Bricker, PM Barclay, S Mallaiah

P.46 Improving data capture on obstetric anaesthesia procedures and complications - role of coding
   G Molnar, G Roberts, C M Thorpe

P.47 Securing and management of epidural catheters in UK maternity units: an OAA approved survey.
   S J Napier, H Swales

P.48 (T) A national survey exploring choice of antibiotic prophylaxis for caesarean section: what impact have the NICE guidelines had?
   KL Gough, U Misra, FN Robinson, DN Lucas

P.49 (T) A service evaluation study to establish the usefulness of combined spinal epidural anaesthesia for women having repeat (>2) caesarean sections
   E V E Plunkett, S Jagannathan, R Gowni, K Hasan

P.50 (T) Complications of cell-salvaged blood re-infusion in the obstetric patient
   R Vedantham, M Mushambi

P.51 Decision making following failed intubation at caesarean section: a national OAA survey
   MWM Rucklidge, SM Yentsis, K Arfanis, CM Blandford, AF Smith

P.52 (T) Impact of dose finding studies on anaesthetic prescribing practice of oxytocin in the United Kingdom.
   R West, S J West, R Simons, A McGlenan

P.53 (T) Maternal positioning during caesarean section: wedge or tilt?
   AJ Shonfeld, E Mullins, S Malhotra

P.54 (T) Simulator-based assessment of an airway checklist in obstetric anaesthesia
   MD Wittenberg, AJ Wickham, RJ Daly, DJA Vaughan, DN Lucas

P.55 Acute neuropathic pain following caesarean section
   M Mackenzie, M Cox, V Terzidou, D Phukan

P.56 (T) Back Pain: A Cautionary Tale
   CN Williams, T West, SF Bell, L de Lloyd, R Baraz

P.57 (T) Postnatal codeine prescription: a survey of UK practice
   N Thiagarajan, P Mackie, G Dickinson, J Bain

P.58 (T) Efficacy of transversus abdominis plane block as part of multimodal analgesia for management of pain following caesarean delivery: an institutional experience
   W D H Lakshman, K Gardner, V Annam
P.59 (T) Incidence of pelvic girdle pain in Peterborough Hospital
M Morosan, R Kere, R Abilamag, M Weisz

P.60 (T) Patient survey regarding enhanced recovery interventions for elective caesarean sections at a tertiary obstetric unit.
S Aluri, R Bhosale, C R Anderson, I Wrench

P.61 (T) The state of post caesarean section pain management services in tertiary hospitals in Nigeria in 2012
J A Ezihe-Ejiofor, E Ogboli-Nwasor, C O Imarengiaye, S Fyneface-Ogan, C C Makwe, A O Lawal

P.62 (T) Wound infection is significantly associated with chronic pain after caesarean section
YM Nawaz, L Parks, PF Bell

P.63 (T) Aortocaval compression in obese pregnant mothers - an MRI study
K Saravanakumar, M Hendrie, P Daniellian, F Smith

P.64 (T) Compliance with the 'prevention of surgical site infection' bundle during caesarean section
J Ayrton, H McPhee, S Bonnington, C Rowley, I Smith

P.65 Evaluation of methods for producing lateral tilt for cardiopulmonary resuscitation in pregnancy
JK Ip, JP Campbell, D Bushby, SM Yentis

P.66 (T) Fibtem® use in the haematological resuscitation of a massive postpartum haemorrhage
DA Burckett-St.Laurent, M Stacey

P.67 (T) ‘It’s all in the eyes’: postnatal sepsis and Behcets disease.
SF Bell, N Tailor, R Collis

P.68 (T) Neuraxial morphine and intrathecal catheter placement as prophylaxis against post dural puncture headaches: 4 year retrospective review in a large maternity unit
JP Williams, A Roberts, S Slinn, R Baraz, S Morris

P.69 (T) PDPH and posterior reversible encephalopathy syndrome (PRES): misdiagnosis or co-presentation
S Hameed, H Doherty, I Ahmed, IF Russell

P.70 (T) Pressure sores in labouring women: a national OAA approved survey
L Armstrong, K Stevenson, R Hignett

P.71 (T) Successful treatment of maternal meningitis complicated by sagittal sinus and internal jugular venous thrombosis
NL Dodds, J Marriott

P.72 Piloting a maternal acute illness management course in Uganda
G Yuill, R McCarthy, L Yuill, S Lee

P.73 A survey of the understanding and management of fetal distress among staff who care for pregnant women
A Mehta, L Wee, S Gajree, J Modder, S Subair

P.74 Epidural analgesia during labour is associated with low Apgar but not with neonatal encephalopathy
S Tornell, C Ekeus, U Högborg, S Håkansson

P.75 (T) Estimation of risk of preterm delivery following non-obstetric surgery during pregnancy
A Rivers, P Aylin, S Brett, S Kumar, V Sodhi

P.76 (T) Evaluation of ultrasound in parturients with a body mass index > 35 kg/m2
E Clitheroe, A Senoga, C Chevannes, H McNamara, A Bhalla

P.77 (T) Evolving anaesthesia for evolving surgical advances: Ex Utero Intrapartum Treatment (EXIT) procedure and remifentanil
KJ Donovan, M Stead

P.78 (T) HIV positive pregnancies: a review of obstetric and anaesthetic management
D Khare, N Hussain, S Bellam, S Quasim
P.79 (T) Just how anxious are primiparous parturients before induction of labour? A prospective study.
J Erskine, J Dolan, S Young

P.80 (T) Lessons learnt from a maternal arrest following intrauterine death
TB Daubeney, P Gill, L Hole

P.81 (T) A survey of labour analgesia services in Nigerian tertiary hospitals in 2012
JA Ezihe-Ejiofor, E Ogboli-Nwasor, S Fyneface-Ogan, C C Makwe, C O Imarengiaye, A O Lawal

P.82 (T) Piloting the CARE revalidation tool in obstetric anaesthesia
S Munshi, E McGrady, S Young

P.83 (T) A case report of a patient with uncommon neurological symptoms following a dural puncture
W D H Lakshman, V Annam, K Gardner

P.84 (T) A picture tells a thousand words but a video tells even more: the use of a training video to reduce the risk of neuraxial chlorhexidine contamination
JPW Collins, GNB Jackson, KJ Bird

P.85 (T) A study of a programmed intermittent bolus and patient-controlled epidural regimen for labour analgesia
T Husain, I Mavridou, R Fernando, N El-Wahab, A Stewart, J Dick, M Columb

P.86 (T) Introduction of patient controlled epidural analgesia: an audit of maternal satisfaction
AJ Downs, R Paris, C Brennan

P.87 (T) Anaesthetic protocol for manual removal of placenta
L Adams, R Menon, O Auckland-Child, M Dresner

P.88 (T) Headache after combined spinal-epidural blocks: a 10-year review
S Griffiths, R Russell

P.89 (T) Time to complete neurological recovery following regional anaesthesia for obstetric procedures - a service evaluation
R Pothireddy, S Aluri, I Wrench

P.90 (T) Trends in obstetric anaesthesia training in the west of Scotland
R Junkin, K Lake, EM McGrady

P.91 Maternal satisfaction with intrapartum epidural analgesia in Corniche Hospital, UAE
ZA Kotyra, KM El Quesny, N Al Hammadi

P.92 (T) Survey of obstetric knowledge, experience and CPD among consultant anaesthetists on a general rota
A Pathmananthan, N Patel, R Bell, M Columb

P.93 (T) A change in clinical practice guideline to improve post caesarean section analgesia with oral oxycodeone
S Griffiths, A Chia

P.94 (T) A retrospective study of anaesthetic and obstetric outcome in patients with increased BMI > 50
N Thiagarajan, H Swales

P.95 A service evaluation of the remifentanil patient controlled analgesia (PCA) service for pain relief in labour
L Relton, B Harris, K Donovan, S Jenkins

P.96 (T) A survey of senior Obstetric Anaesthetists' tranexamic acid use, West of Scotland
KE Bramley, WN Weidenhammer, KN Litchfield

P.97 A survey of trainees’ perspectives on epidural training in the United Kingdom
RA Isaacs, MYK Wee, VN Dubey, N Vaughan

P.98 A survey of women's satisfaction undergoing elective caesarean on a combined elective and emergency caesarean section list
S Bhangu, K James, N Bhandal
P.99  (T) A multidisciplinary approach to obstetric anaesthetic handover and documentation with implementation of the recognised "SAFE tool"
C O Donnell, R Laird, V Cherian

P.100  (T) Acute facial swelling in labour: pushed for a diagnosis
K Slade, T Dunn, L Millar, P Paisley, E Jarvie, M Patel

P.101  (T) Airway assessment in obstetric patients: completing the audit cycle.
CN Prasad, A Bhat

P.102  (T) Airway obstruction, thyroidectomy and caesarean section - a case report
M A Hendrie, M M Kumar

P.103  (T) An audit of antenatal assessment of morbidly obese parturients.
G Christodoulides, C Burlinson, R Martin, K Srinivas

P.104  (T) Anaesthesia where there is no pressure: a novel set-up for delivering anaesthesia in a remote setting
PD Bonnett, I Wrench

P.105  (T) Anaesthetic assessment of morbidly obese pregnant women- a useful resource?
L Fulton, E Evans, F Schroeder, R Wendler

P.106  (T) Anaesthetic management of a parturient with advanced Huntington's disease
KL Halcrow, FE Warrick

P.107  (T) Anesthetic management of a laboring patient with hypertrophic obstructive cardiomyopathy
J Choi, J Epstein, L Germond

P.108  Assessment of a. et v. ophtalmica hemodynamic state in preeclamptic gravies
Efim Shifman, Natalia Khramtchenko, Sergei Sokologoskiy, Svetlana Floka

P.109  (T) Audit of inadvertent hypothermia in obstetric theatres in a large maternity unit
L Bowen, T Soskova, R Baraz

P.110  (T) Audit of knowledge of translation services and resources on the labour suite
I Saule, EA Maronge, A Banks

P.111  (T) Audit of preoperative fasting times for elective caesarean section: Are we compliant with new guidelines?
V Nalawade, RCC Thompson

P.112  (T) Audit of timing of epidural top-ups prior to delivery; a completed audit cycle
J K Wakeford, MA Stevens

P.113  (T) Caesarean Section - An analgesic option?
TR Patel, A Shonfeld, G Bhatt, F Plaat

P.114  (T) Can a smartphone app be used to communicate with patients who speak no or limited English?
C E Richards, M Turner, K Woods

P.115  (T) Change of policy on initiating epidural top up for emergency Caesarean section- an impact on the rate of general anaesthesia
S Valap, S Lakhota, R Vickers

P.116  (T) Changing (obstetric) anaesthetic job opportunities over the last five years
N Eltom, J E Petrie, C Fandareiro, S Yentis

P.117  Conversion of regional anaesthesia to general anaesthesia for emergency caesarean section
N Carstairs, A Cole, J Duggan

P.118  (T) Conversion rate of anaesthesia for caesarean section: 9 years of audit experience in a teaching hospital
S Hameed, L Hickinbotham, P Makani
P.119  (T) Core competencies in obstetric anaesthesia: A pilot study day for trainees in Northern Ireland
YM Nawaz, M Molloy

P.120  (T) Correlation between the CARE revalidation tool and the efficacy of epidural analgesia
S Munshi, S Young, E McGrady

P.121  Development of a midwife led high BMI clinic: Can midwives safely assess anaesthetic risk?
S F Bell, B Huxtable-goy, R Collis, S Harries

P.122  Documentation of general anaesthesia for LSCS: would your anaesthetic chart stand up under legal scrutiny?
LJ Hickinbotham, S Hameed, M Purva

P.123  (T) Does remifentanil improve external cephalic version success rates and comfort?
RT George, N Singh, M Cox, MR Johnson, SM Yentis

P.124  (T) Electronic epidural analgesia charts on a paperless delivery suite
G Gunaratnam, T Reynolds, TA Tanqueray

P.125  (T) Emergency lower segment caesarean section in a parturient with narcolepsy
M Callaghan, A Kapoor, R O'Dowd

P.126  (T) Enhanced recovery after caesarean section: how soon could women go home?
N Usman, F Plaat

P.127  (T) Enhanced recovery after surgery in obstetrics: a regional (west midlands) survey of current practice
A Bodh, M Ramamoorthy, S Dinesh

P.128  (T) Epidural haematoma and HELLP syndrome
W Mon, A Muddanna, J Scott, D Pasupathy, G O'Sullivan

P.129  (T) Evaluation of communication pathways for emergency caesarean sections
K Bauchmuller, V Karthikeyan, I Wrench

P.130  (T) Evaluation of ROTEI training for massive obstetric hemorrhage - Experience of Trainee Anaesthetists
D B Jumani, A K Bhalla, P Barclay, C Chevannes

P.131  (T) Ever expanding maternity units: a case for two on-call anaesthetists?
RJ Pilling, Y Sennoun, M Doraiswami

P.132  (T) Expectant mothers' perceptions of obstetric anaesthetic clinics
RJ Daly, MD Wittenberg, AJ Wickham, BA Loughnan, PN Robinson

P.133  (T) Factors causing anxiety around general anaesthesia for caesarean section
MD Wittenberg, RL Rogers, PN Robinson, DN Lucas

P.134  (T) Failed neuraxial blockade in a patient with neurofibromatosis type 1 undergoing elective caesarean section
R Gatherer, S Leonardi

P.135  (T) Feasibility and initial results of the implementation of a validated patient satisfaction with regional anaesthesia questionnaire for elective caesarean sections in a UK anaesthetic department
A Pathmanathan, A Mehta, S Barnett, R Moonesinghe

P.136  (T) Global Trigger Tool- an adaptation relevant to maternity service
DYK Tong, R Hartopp

P.137  Hepatic rupture associated with HELLP syndrome
EMA O'Shea, E Muhamuz, M Girgis

T Husain, YM Liu, R Fernando, M Sodhi, M Columb
P.139  (T) Impact of multidisciplinary education on intrauterine resuscitation
S N Phillips, V Cowie, M Mackenzie

P.140  (T) Interventional radiology for postpartum haemorrhage in a district hospital
S Moodliar, A Barry, J T Chieza

P.141  Is an Epidural top up possible in the most urgent caesarean section
E Bjornestad

P.142  (T) Knowledge of and views on classification of caesarean section and assisted vaginal delivery
MCR Butcher, SM Yentis

P.143  (T) Low dose epidural mixture for caesarean section
A Kochhar, B Madhavan

P.144  (T) Management of massive obstetric haemorrhage at a large teaching hospital
JN Moore, L Thomas, V Kartha

P.145  (T) Management of patient presenting with thrombotic thrombocytopenic purpura (TTP) and an intra-uterine death
CJ Kelly, C McCarroll, L Doherty, J Costa, G Benson

P.146  (T) Management of post-dural puncture headache in obstetric patients: an audit of current practice
R Sama, W Salamut, D Dabrowska

P.147  Midwifery training for invasive monitoring in obstetric HDU on the labour suite
J Reid, P Virhia, P De Freitas

P.148  Monitoring of LMWH in pregnancy
C A Knapp, S Nortcliffe

P.149  (T) Neurological complications following central neuraxial block in obstetrics
JN Moore, S Kanakarajan

P.150  (T) Nonobstetric pain in pregnancy: a survey at Royal Free Hospital
R Gupta, A McGlennan

P.151  (T) Nutritional advise for labouring women with epidurals
S N Phillips, A Stewart, M Mackenzie

P.152  (T) OAA information for mothers leaflets: awareness and usage amongst midwives
M Mushambi, S Sebastian, S Hameed, H Swales, M Purva

P.153  (T) Patients and midwives happy but pain scores worse - implementing a new pain relief protocol in a tertiary referral centre
C Meer, R Goyal, B Kasa, I Wrench

P.154  (T) Peripartum Cardiomyopathy
S Botros, A Haroun

P.155  (T) Phenylephrine in obstetric anaesthesia - a survey of UK practice
L Webster, L Allman, S Rehman, A Carling

P.156  (T) Post operative analgesia and pain scores for elective caesarean section under spinal anaesthesia
CE Izod, VE Bythell

P.157  (T) Postdural puncture bacterial meningitis after spinal anaesthesia: a cause of concern!
J Glazebrook, M Chong, I Ahmed, I F Russell

P.158  (T) Post-dural puncture meningitis in an obstetric patient following difficult combined spinal-epidural for elective LSCS.
EG Owen, JA Holland, A Carling
P.159  (T) Postnatal obstetric transfusions – A survey into variability of practice
LA Lee, E Harvey, J Drake

P.160  (T) Postpartum haemorrhage: an audit of risk of haemorrhage, allogenic blood and cell
salvage use in caesarian sections.
M Jaffer, R Swanton, J Wilson

P.161  (T) Postural orthostatic tachycardia syndrome and caesarean section: A heart racing case
J Ghoshdasidar, BS Baytug, M Doraisswami

P.162  (T) Practice of patient controlled epidural analgesia (PCEA) in obstetric units: a national
survey of current practice.
B Shukla, A Singh, K Jani

P.163  (T) Pre-filled Thiopental Syringes – Are they cost effective? Our Practice
R Khirwadkar, EA Djabatey, J Toft

P.164  (T) Pregnancy and Beta Ketothiolase deficiency
M Kayani, S Botros, P Moore

P.165  (T) Presentation and management of post-dural puncture headache over ten years
S Griffiths, R Russell

P.166  (T) Prospective caesarean section GA audit: Are we compliant with revised RCOA
standards?
V Nalawade, U Misra, Z Arfeen

P.167  (T) Reducing starvation times and improving the patient experience in elective caesarean
section patients: preoperative isotonic drinks
M H Davies, K V Bosworth, J Marriott, S Millett

P.168  (T) Referrals to an antenatal anaesthetic clinic: epidemiology and outcomes
AJ Wickham, MD Wittenberg, K Rao, PN Robinson

P.169  (T) Remifentanil use for breakthrough pain during lower segment caesarean section
under central neuroaxial block
R S Newton, I Wrench

P.170  (T) Safer surgery: Improving teamwork and communication through briefing and
debriefing
C Rowley, H McPhee

P.171  (T) Sepsis in pregnancy: Compliance with RCOG guidelines in mothers admitted to a
tertiary referral hospital obstetric HDU
WN Weidenhammer, S Munshi, R Docking, K Litchfield

P.172  (T) Severe needle phobia- A survey of treatment options throughout maternity units within the
North East of England
AL Hussey, J Morch-Siddall

P.173  (T) Sevredol is as effective as Oramorph for rescue analgesia in the first 24 hours post
Caesarean Section
C Burlinson, M Shaw, M Agarwal

P.174  (T) Simulation of failed intubation in obstetrics; a training improvement project
NJ Boniface, A Darweish, E Clow, NA Muchatuta

P.175  (T) SPOILT audit - in utero resuscitation for category 1 caesarean sections
L Saule, D Bogod

P.176  (T) Stress Urinary Incontinence (SUI) . Who is responsible? Obstetric, Anaesthetic or
Maternal risk factors
A Amarasekara, E Lynes, G Madden, N Mulla, I Suri, O Sorinola

P.177  (T) Survey of obstetric epidural anaesthetic practises in Scotland
R Vedagiri Sai, G Rappai, C Johnstone

P.178  (T) Survey of test doses used following epidural placement for labour analgesia
GB Kitchen, VK Melachuri
