

7158445 Abstract ID	Abstract Title	Presenting Author First name	Presenting Author Surname	Presenting Day and Board	IJOA Ref.
7162763	A diagnostic challenge: renal angle pain at 35 weeks gestation	Adebisi	Adeniji	D2PB10	P.227
7161050	How to fail at quality improvement in obstetric anaesthesia: exploring a project to introduce oral paracetamol for elective LSCS	Lara	Allen	D1PB7	P.077
7148685	Dodging bullets: Emergency spinal anaesthesia in a patient with a spinal bullet fragment.	Oscar	Atkinson	D2PB5	P.175
7157532	Optimising cell salvage and swab washing in a tertiary maternity unit	Fiona	Auld	D1PB3	P.036
7158091	Development of the post obstetric theatre assessment tool (POTATo) as a quality improvement tool in a tertiary maternity unit	Fiona	Auld	D1PB10	P.115
7160751	Anaesthetic management of two obstetric patients with congenital subaortic stenosis	Rohan	Babla	D2PB10	P.231
7162502	Evaluation of spinal dose administered to short stature parturients having a caesarean delivery and the associated complications	Kezia	Babu	D1PB4	P.037
7160865	Association between anaesthetic technique and post operative pain following lower segment caesarean section for placenta accreta spectrum disorder	Amy	Baigent	D1PB4	P.042
7158027	Implementation of the 2020 UK safety guideline on neurological monitoring after obstetric neuraxial block: An OAA national survey	Duncan	Baily	D2BP7	P.194
7160238	Service evaluation of qLabs® FIB point-of-care fibrinogen testing in acute obstetric haemorrhage in a UK maternity unit	Debadutta	Behera	D1PB1	P.011
7160613	Reduction in unnecessary blood product transfusion following introduction of point of care testing coagulation in post-partum haemorrhage	Debadutta	Behera	D1PB3	P.025

7162401	Strength in numbers: Validation of TEG 6s and ROTEM Sigma devices across 35 sites in the Obstetric Bleeding Study UK (OBS UK)	Sarah	Bell	D1PB3	P.027
7161245	Anaesthetic Management of a Pregnant Woman with Super Obesity and Complex Co-morbidities Undergoing Caesarean Section Delivery	Kate	Bell	D2PB1	P.122
7158396	Anaesthetic and Obstetric Multidisciplinary Planning for Preterm Delivery in Severe Interstitial Lung Disease	Vani	Bhageria	D2PB1	P.131
7157239	Elective Lower segment Caesarean Section (LSCS) at 32 weeks in a parturient with Langerhans Cell Histiocytosis due to worsening respiratory function	Amy	Bhatia	D2PB3	P.147
7149243	Empowering patients through video: enhancing the labour epidural consent experience	Grace	Bickmore	D1PB6	P.071
7161275	Anaesthetic Consent for spinal & general anaesthesia prior to Elective Caesarean Section: Are We Meeting Best Practice In Liverpool Women's?	Cate	Blayney	D2PB5	P.169
7157364	An evaluation of patient experience of planned caesarean sections: the effects of increasing demand and limited service capacity	Elizabeth	Blythe	D2PB2	P.133
7159356	An audit of single unit blood transfusions in the management of postpartum haemorrhage: can they be avoided?	Michelle	Bone	D1PB3	P.029
7203847	Alertive – communication tool or verb? A survey of maternity service clinicians before and after introduction of a replacement 'bleep' system	Alexander	Boone	D2BP7	P.190
7161105	Shivering during caesarean delivery: A narrative review with systematic methodology of incidence, mechanisms and management	Amelia	Bowman	D1PB4	P.043
7163798	Improving readiness for obstetric emergencies in a non-obstetric hospital: a baseline audit and quality improvement project	Emma	Bradley	D1PB6	P.061

7163801	Creating order out of chaos: a quality improvement project evaluating a structured SITREP communication tool during major obstetric haemorrhage	Alexander	Brazier	D1PB1	P.010
7157624	Placenta Accreta Spectrum vs uterine dehiscence: interventional radiology and haemorrhage management	Malcom	Broom	D1PB1	P.005
7162527	A review of obstetric anaesthesia NHS Resolution cases in England from 2006 to 2025	Keiran	Brosnan	D1PB6	P.062
7156558	Extensive postpartum iliofemoral DVT mimicking neuraxial complications: A case report	Rebecca	Browning	D1PB2	P.022
7157206	Anaesthetic management for caesarean section in a patient with Moyamoya disease	Oleg	Bumbac	D2PB1	P.132
7158672	Elective caesarean delivery in a patient with osteopathia striata with cranial sclerosis (OS-CS/Horan-Beighton syndrome)	Andrew	Burch	D2PB3	P.150
7158775	From retrospective audit to real-time improvement: A year of live and continuous quality improvement in obstetric anaesthesia	Gareth	Byrne	D1PB1	P.004
7159675	Severe Hyperemesis Gravidarum presenting in active labour with multi-system derangement	Georgina	Carnaby	D1PB2	P.017
7162722	Pain and discomfort reported during caesarean section – a district general hospital perspective	Calum	Carlaw	D1PB4	P.048
7162685	Introduction of a mobile labour epidural service at a district general hospital	Calum	Carlaw	D2PB4	P.160
7160871	Anaesthetic strategies for caesarean delivery in patients with Fontan physiology: a case series	Menka	Chachlani	D1PB2	P.024
7160159	Ethnic disparities in general anaesthesia for caesarean delivery – analysis from three hospitals in Manchester	Amit	Chandvale	D2BP7	P.192
7148571	High flow nasal oxygen verses face mask preoxygenation of pregnant patients with high body mass: a crossover noninferiority randomised controlled trial	Patrick	Chee Fei Tan	D1PB4	P.047

7148572	Short term haemodynamic effects of high flow nasal oxygen in pregnant patients with hypertension – a safety and feasibility study	Patrick	Chee Fei Tan	D1PB8	P.088
7158147	Anaesthetic management of subglottic stenosis complicated by pre-eclampsia in pregnancy	Kelley	Chen	D2PB4	P.165
7158188	Epidural top-up for caesarean section: a retrospective audit comparing 'fizzy mix' and ropivacaine at North Bristol NHS Trust (NBT)	Kangni	Chen	D2PB6	P.185
7162684	Improving obstetric anaesthesia training with multidisciplinary maternal medicine simulation	Dipayan	Choudhuri	D1PB9	P.100
7161314	From Syntocinon to carbetocin: effects on postpartum haemorrhage after Caesarean birth	Cecily	Christopher	D1PB1	P.007
7161324	From brief to birth: improving maternity theatre safety with the LABOUR checklist	Cecily	Christopher	D1PB6	P.069
7158048	The effectiveness of timed intermitted epidural dolus verses patient controlled epidural analgesia for primiparous women in a developing country	Caroline	Chukwu	D1PB7	P.084
7161344	Amniotic fluid embolism with cardiac arrest: rapid intervention and survival – role of human factors – a case report	Josh	Colfar	D2PB8	P.205
7158471	Current neuraxial techniques for labour analgesia in the UK: a survey of OAA members	Katherine	Coppack	D2PB5	P.172
7134818	Less is more: recognising major obstetric haemorrhage in low maternal weight	Morwenna	Coultate	D2PB8	P.209
7162430	A qualitative quality improvement evaluation of antenatal epidural education and postnatal escalation pathways	Jade	Courcol	D1PB5	P.050
7163821	Enhancing emergency preparedness for obstetric emergencies outside of obstetric centres: A multidisciplinary quality improvement initiative	Ciara	Crotty	D1PB9	P.101

7163795	Postnatal anaesthetic clinic representation of attenders by age, ethnicity and deprivation	Toby	Culling	D1PB5	P.054
7162769	Remifentanil patient controlled analgesia (PCA) in labour: raising awareness to improve choice	Ceit	Cunningham	D1PB9	P.102
7162753	Balancing brain and baby: anaesthesia for a third trimester meningioma	Clare	Cushley	D2PB10	P.226
7158044	Shake it Off: a quality improvement project to reduce intraoperative shivering in obstetric patients under neuraxial anaesthesia	Nuwan	Dahanayake	D1PB10	P.116
7162614	Remifentanil PCA Safety in labour: a retrospective review with focus on BMI and respiratory outcomes	Seamus	Daly	D1PB7	P.075
7129392	Peri-partum Multidisciplinary Approach to the Management of Glutaric Aciduria Type 1 during Induction of Labour and Emergency Caesarean Delivery	Séamus	Daly	D2PB5	P.176
7162490	Paramyotonia congenita in pregnancy: anaesthetic planning for a rare sodium channelopathy	Séamus	Daly	D2BP7	P.197
7163800	Incidence and predictors of intraoperative pain during caesarean section under neuraxial anaesthesia: a prospective observational study	Mayura	Damanhuri	D2PB9	P.214
7162410	The impact of mobilisation with epidural analgesia in labour on mode of delivery	Stuart	Davis	D2PB2	P.139
7158222	Factors influencing dose escalation of remifentanil patient-controlled analgesia in labour	Lindsay	Dawson	D1PB1	P.012
7160759	Achieving routine use of opioids at induction of general anaesthesia in obstetric patients at a large tertiary unit	Lisa	Dewar	D1PB4	P.045
7161176	Optimising airway safety in obstetrics: a five-year quality improvement project using first-line video-laryngoscopy in over 1,000 intubations	Lisa	Dewar	D1PB8	P.092

7162512	A 'topic of the week' quality improvement intervention to enhance formal teaching during obstetric anaesthesia placements	Lisa	Dewar	D1PB9	P.108
7163783	A case of Mirror Syndrome – distinct from pre-eclampsia	Duaa	Dhafer	D2PB8	P.204
7157983	Total intravenous anaesthesia for lower-segment Caesarean section: a scoping review	Shreya	Dinesh	D2PB9	P.216
7155691	Obstetric rapid sequence induction: A national survey of current practice	Hannah	Donaldson	D1PB10	P.113
7163796	Implementing a remifentanil Patient-Controlled Analgesia (PCA) service for labour analgesia in a district general hospital	Danielle	Donoghue	D2PB6	P.184
7146777	Chronic pain and impaired recovery after caesarean delivery – A nationwide prospective cohort study	Patricia	Duch	D1PB4	P.039
7162475	Post-operative analgesia and opioid use after caesarean section	Emma	Durrant	D1PB7	P.073
7158306	Major trauma in pregnancy: a three-year case review at a Scottish major trauma centre	Emma	Durrant	D1PB8	P.091
7158787	Evaluation of anaesthetic technique and its effect on blood loss and transfusion risk in Placenta Accreta Spectrum Disorder	Ime	Eka	D1PB1	P.002
7162747	Why not Remifentanil PCA? From 'Can we?' to 'We are' in labour analgesia	Muhammed	Elgharabawy	D1PB9	P.103
